8th February 1966

Secretary, Department of Air, Russell Offices, CANBERRA ACT
Commander, 2nd Air Division, USAF, VIEPNAM
Air Attache, Australian Embassy, SAIGON VIETNAM

RAAF TRANSPORT FLIGHT
MONTHLY REPORT

Introduction

1. This report covers the operations of RAAF Transport Flight VIETNAM from 1st January 1966 to 31st January 1966.
2. Flight Lieutenant A.H. ABBOTT, Flying Officer B.I. BROWN and Pilot Officer R.A. McKERNAN returned to AUSTRALIA on completion of tour and Pilot Officer J.M. LANNING arrived as replacement for Flying Officer BROWN.
3. The Flight continued operations over the New Year and during the Chinese New Year (TET) when most American and Vietnamese services were stood down.
4. Additional tasks now require the Flight to provide crews and aircraft seven days a week.
5. The following are the flying statistics for January 1966:-

Sorties	804
Hours flown	501.30
Cargo Carried	1,203,178 lbs
Mail Carried	33,304 lbs
Passengers Carried	3,202
6. The following achievements have been attained since the Flight commenced operations in July 1964:-

Sorties	13,474
Hours flown	8719.20
Cargo Carried	22,856,191 lbs
Mail Carried	148,217 lbs
Passengers	62,527
7. Since the return of Flt Lt ABBOTT, Flt Lt GODFREY has commenced training for upgrading to Right Hand Seat Check Captain. The QFI has flown on operations with most pilots during the month and reports that the standard of flying has reached a high level.
8. With the advent of second pilots arriving in the Flight it has been necessary to commence a training programme utilizing operational sorties and RHS captains to bring them to captain standard during their tour. It is necessary that these pilots become captains in order to provide some element of experience during the next aircrew change over which commences on 1st May 1966.

-2-

Operations

9. Four RAAF aircraft were hit by small arms fire this month. Pilots returning from operational missions are reporting that ground fire is becoming more and more concentrated in all areas. One American C123 was hit five times at 9000 feet during the month. The Commanding Officer was hit by small arms fire when ferrying a load of ammunition into TAN KY airfield. Damage caused required a flap change.

General

10. Air Commodore W.E. TOWNSEND, CBE, visited the Flight on 26th January 1966. During his stay two airmen were granted a parade to the Officer Commanding.

11. With aircraft A4-179 now with Air Vietnam for "E" servicing the Flight is again reduced to five serviceable aircraft. Aircraft A4-171 has been AOG for the past 8½ months and although repeated efforts have been made to obtain the required spares through US Army channels, so far these spares have not been forthcoming. It is now requested that the AOG items required, be taken up at a higher level as repeated correspondence from this level is being ignored.

Equipment

12. All demands for aircraft spares placed on RAAF Stores Depots in December have been satisfied with the exception of seven radio valves type T204/4CX2505 and advice has been received that these are held dues in against an overseas indent.

13. Supply action on all other outstanding demands has been advised. However, a modification kit ident No. A4/41259 appears to have been mislaid between WASHINGTON and VIETNAM. This Unit has signalled WASHINGTON to confirm despatch details.

Personnel

14. Personnel movements on posting to and from the Unit were as follows:-

Defense

15. Advice has been received that our application for an increase to establishment of four Aerodrome Defense Guards has been approved. The addition of these members to our present strength of guards will enable stricter security measures to be employed at both villas.

Cost of Living

16. Our 1903/6/Accts(12) 29th January 1966 detailed the unsatisfactory situation regarding meal allowances. Headquarters US Support Command, VUNG TAU, has taken measures to force prices down but bearing in mind the large number of US servicemen in this area, who are paid very liberal allowances, no permanent success with these measures is anticipated.

No 161 Recce Flight

17. The Commanding Officer is still having difficulty in hearing charges against members of No 161 Recce Flight at BIEN HOA. They are frequently employed on patrol duties and on many occasions are not available when the Commanding Officer arrives at the Unit.

Medical

18. A total of forty six members were treated for minor complaints during January. One member was medevacted to No 4 Hospital for hernia repair. There was only one case of VDG for the month against four in December.

19. A swing fog machine has been received and fogging of both villas has commenced.

20. There has been some difficulty in taking blood tests of members before they return home owing to the shortage of equipment for this procedure. Demands have now been placed on BUTTERWORTH to supply same.

21. The standard of health on the Unit is very high at present. A card index system has been started to ensure that inoculations are up to date as they are at present.

Transport

22. Advice has been received that a MINIBUS has been procured at BUTTERWORTH for despatch to RTFV. As the transport is urgently required in SAIGON, BUTTERWORTH has been requested to advise despatch details. No advice has been received to date. (Vehicle has been received after this report was drafted).

CONFIDENTIAL

-4-

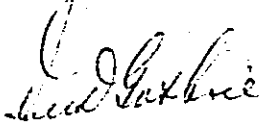

Communications.

23. The teleprinter installed at the Unit is now serviced regularly and is being used to good advantage. Although this method is used as much as possible for outgoing unclassified messages, there have been no inwards messages received from the mainland through this link.

Mail

24. Delivery of personal mail through AUSTRALIAN FPO1 appears to have improved and some mail is taking four days only to reach here from AUSTRALIA.

25. The American Aerial Post Office 96291 situated on the base is no longer available for use by our members as a result of a direction by MACV1. This has created a problem for members who wish to mail correspondence to countries other than AUSTRALIA. The Unit has had representations to the Commander, 315th Air Commando Group, to re-open this facility to us.

 Commander, 2nd Air Division, USAF, VIETNAM
 Air Attache, Australian Embassy, SAIGON VIETNAM

RAAF TRANSPORT FLIGHT
MONTHLY REPORT

Introduction

1. This report covers the operations of RAAF Transport Flight VIETNAM from 1st February 1966 to 28th February 1966.

2. Flying Officer D.W. RULE (056351) and Pilot Officer J.J. HARRISON (044201) GDPLTS arrived on posting wef 1st February 1966.

3. The Flight continued operations on a seven day per week basis.

4. The following are the flying statistics for February 1966:-

Sorties	759
Hours flown	494.55
Cargo Carried	1,377,978 lbs
Mail Carried	26,813 lbs
Passengers Carried	3,637

The total freight carried this month is the second highest of any previous month. Equal to 2,132,191 lbs.

5. The total effort of the Flight since it commenced operations in July 1964 are as follows:-

Sorties	14,233
Hours flown	9,204.15
Cargo Carried	24,234,169 lbs
Mail Carried	175,030 lbs
Passengers Carried	66,164

6. During the period of report Flt Lt G GODFREY (054101) was upgraded to a Right Hand Seat Check Captain. The CFI has flown with most pilots on operations during the month and reports that the standard of flying has maintained a high level.

Operations

7. One RAAF aircraft was hit by small arms fire during the month and there were several near misses. New air strips are being opened up in the HIATRANG and DANANG areas to assist Special Forces operations. These areas are very "hot" and further battle damage can be expected as operations are increased in intensity. Throughout the month the Flight has been in closer contact with the enemy than before. On resupply missions to troops in the field the aircraft have been escorted by fighter aircraft.

CONFIDENTIAL

-2-

General

8. Squadron Leader W.G. SMITH of Headquarters Operational Command arrived on a staff visit and is scheduled to depart on the 4th March 1966. Chaplain 3rd Class G.G. ASHWORTH arrived on the 1st February on temporary duty from UBON returning on the 15th February 1966.

9. With aircraft A4-179 undergoing "E" servicing with Air Vietnam the Flight was reduced to five serviceable aircraft. Work has now commenced on A4-171 and this aircraft is scheduled for service by 14th March 1966.

Equipment

10. Arrangements are being made to move the unit store from its present site in the hangar to another location in the same hangar. The transfer is held up temporarily pending construction of a new floor but it is expected that this work will be finished within the month.

11. The new location will allow much more storage space and better working conditions for the equipment assistants employed in the store.

Transport

12. The Minibus provided by Base Squadron BUTTERWORTH has been received at the Unit and is being used to good advantage in SAIGON by the WOFF MEDORD and FSGT EQUAST who are employed on MEDEVAC and movements duties respectively. The Unit is appreciative of the prompt efforts to make this vehicle available.

13. All Unit Jeeps on loan from US Army have been replaced by new vehicles and it is understood that the heavier vehicles will also be replaced in the near future.

Defense

14. As a result of increased commitments of Vietnamese police in the VUNG TAU area they have been withdrawn from duty at both the Villa Anna and Villa Ngoc Huong.

15. This has thrown a big strain on the four RAFF guards on strength and as it is necessary for security reasons to have a guard on the Villas at all times, all guards are now required to work a 56 hour week.

16. Inwards posting of the four Aerodrome Defense Guards established for the Unit is therefore an urgent requirement.

Pay

17. All paybooks of members of RTFV have been converted to decimal currency including those detached to No. 161 Recce Flight.

Meal Allowance

18. It would be appreciated if an answer could be given to our 1905/6/Accts(12) 29th January 1966 concerning increased meal allowances.

...../3

CONFIDENTIAL

Medical

19. A total of 37 members were treated for minor complaints mainly URTI and Otitis Media.
20. Three members were medevacted to 4HOSP one because of emotional trouble, one with a back injury and one VDG for medical clearance prior to termination of tour.
21. There was one case of hepatitis reported during the month and the incidence of venereal disease was 3 VDG cases for the month.
22. In general the standard of health on the Unit is high and on the incline.

Welfare

23. A 75 hp Chrysler outboard engine has been purchased from Thornycroft Malaysia Ltd, SINGAPORE at a cost of 2779.20 Malayan dollars (US \$926.40). The engine has been installed on the motor boat on loan from the US Forces and has proved very satisfactory.
24. This facility has given another recreational outlet to member of the Unit during stand-down periods and will help to relieve the humdrum existence in this area.
25. After paying for this engine and the insurance on same the Unit Welfare Fund will be reduced to approximately US\$100 and a further grant of money would be appreciated to cover maintenance costs on the boat and engine as well as the purchase of other items of Welfare equipment.

Personnel

26. Personnel movements on posting to and from the Unit were as follows:-

INWARDS

No	Rank	Name	Mastering	Date
C56351	PLGOFF	RULE	D.W. GDPLT	01FEB66
O44201	PLTOFF	HARRISON	J.J. GDPLT	01FEB66

A55978	CPL	CAMERON	J.T. ADI	26FEB66
A15456	LAC	SMITH	C.J. GIAND	19FEB66

Leave

27. No decision has yet been received on the Unit submission 1219/1/P3(106) dated 29th September 1965 regarding compensation for extra days worked at this Unit during a normal tour.
28. As many members are unhappy about the present leave situation, which is most unfavourable taking into account the excessive periods worked, and as this submission was made over four months ago, your early advice on this matter would be appreciated.

Mail

29. The mail service through AUST FPO1 is now operating smoothly. The delivery time fluctuates between four to seven days between WUNG TAU and AUSTRALIA.

SYDNEY NSW

5th April 1966

Secretary, Department of Air, Russell Offices, CANBERRA ACT
Commander, 2nd Air Division, USAF, VIETNAM
Air Attache, Australian Embassy, SAIGON VIETNAM

RAAF TRANSPORT FLIGHT
MONTHLY REPORT

Introduction

1. This report covers operations of RAAF Transport Flight, VIETNAM from 1st March 1966 to 31st March 1966.
2. Flight Lieutenant B.V. TIPPING(035364) EQUIP, returned to AUSTRALIA on completion of tour and was replaced by Flight Lieutenant J. DUNNE (0210653) EQUIP.
3. Flying operations continued on a seven day per week basis.
4. The following are the flying statistics for March 1966:-

Sorties	933
Hours flown	566.55
Cargo carried	1,618,713 lbs
Mail carried	25,647 lbs
Passengers carried	4,559.

This month more freight and passengers were carried than any previous month total being 2,556,160 lbs.

5. The total effort of the Flight since it commenced operations in July 1964 are as follows:-

Sorties	15,166
Hours flown	9,771.10
Cargo carried	25,852,882 lbs
Mail carried	200,677 lbs
Passengers carried	70,723.

Training

6. Flying Officers YATES and PIKE have commenced their training for upgrading to Right Hand Seat Captains.

Operations

7. Operations continued as normal this month. The latter part of the month saw the start of the wet season type weather in the Delta region. This change in the weather is some six to eight weeks early and has puzzled the meteorological forecasters. Pilots will now have to adapt to wet strip operations and the difficulty associated with thunderstorms.

...../2

8. Although a number of our aircraft were fired upon during the month no hits were recorded. This is very pleasing considering the number of supply drops and close support missions carried out during the month.

9. Aircraft A4-171 which had been AOG since May 1965 was successfully test flown during the month and is now back in operations. Having this aircraft back in the fleet has made an appreciable difference to operations, as up to its return the Flight has been operating with only 5 aircraft. This extra aircraft has increased the operational reliability of the Flight to a point where all commitments can now be met.

General

10. The Deputy Chief of the Air Staff, Air Vice Marshal F. HEDLAM, CB, CBE, inspected the Flight on 15th March 1966. Other visitors during the month were Air Commodore C.G. CLERY, CBE, Controller of Equipment, Group Captain A.R. HODGE, AFC, Director of Organization, Group Captain G.F. DE LA RUE, Wing Commander C.J. LAMB, Wing Commander R.A. SCOTT, AFC and Mr J RICE. All members were from Department of Air.

11. VUNG TAU airfield was mortared on the night of Saturday 12th March 1966. Between 50 and 60 rounds of 85 mm mortar landed on the airfield. Two rounds landed in the Flights parking area whilst another two landed close by. Two aircraft sustained category 2 damage but were back in the air two days later. No casualties were suffered by the RAAF.

12. The Adjutant and Commanding Officer were fired at by a sniper whilst driving along French Beach one afternoon. Since then a number of AMERICANS and VIETNAMESE have been killed or wounded in the VUNG TAU area from sniper fire. Security has been tightened up in the Villa areas.

13. It is pleasing to note four extra guards have been posted into the Flight. This will give added security to both the RAAF Villas. During the month a twelve foot high barb wire fence was erected around each of the Villas which has given added security.

Equipment

14. The new unit store has been completed and is being used. The advantages gained from the new location are:-

- (a) more security;
- (b) better working conditions;
- (c) slightly increased space for technical personnel; and,
- (d) a raised floor which should give dry storage throughout the wet season.

The arrangement is far from ideal, but is certainly a step forward from the cramped conditions which existed in the hangar area.

Transport

15. The Minibus operated by the movements NCO in SAIGON is proving to be an excellent acquisition. It gives the NCO concerned the necessary flexibility required to provide arrivals and departures with essential assistance and direction, as well as providing Flight personnel on duty in SAIGON with the means of achieving twice the past effort in half the time.

16. However, due to the number of vehicles on SAIGON roads and the apparent lack of road laws and traffic sense it is expected that minor scrapes will be frequent.

17. The first of the Flights jeeps to be painted in RAAF colours is now on the road. The basic colour is blue (although lighter than Air Force blue) with the kangaroo emblem circled by a white roundel. Royal Australian Air Force is painted under the front windscreen.

Defense

18. Negotiations with the Chief of Police have resulted in the return of VIETNAMESE Police to villa guard duty. Never-the-less, constantly it has been necessary to maintain the strictest control on their movements as they have proved most unreliable, quitting their post for a variety of reasons rarely based of fact.

19. The introduction of a RAAF 24 hour guard in the near future will bring considerable relief. It is intended to retain the VIETNAMESE Police guards as long as they are available, but they will not be on duty alone.

Meal Allowance

20. A reply to our 1903/6/Accts(12) dated 29th January 1966 concerning increased meal allowances is still awaited. Although the AMERICAN area commander has taken quite positive steps to stop the cost of living increases, only partial success has been achieved.

21. Unfortunately the complete lack of dining facilities together with the difficulties involved in obtaining buildings is deferring the opportunity to introduce realistic catering facilities

Medical

22. A total of 30 members were treated for minor complaints throughout the month. No cases of hepatitis were reported and the previously reported case was of a mild nature and the member has returned to full duty. 3 VDQ cases were reported.

23. One member arrived from Base Squadron FAIRBANK on posting who was not vaccinated within the previous 12 months for smallpox and did not have a plague injection.

24. The US Army flight surgeon Captain SIGBAND lectured airmen and NCOs at their villa on local diseases, problems associated with eating local foods, safeguards against Hepatitis and road and surf hazards.

25. The Flight health standard is high.

26. Flight Lieutenant J DUNNE attended a conference, which, amongst other things, discussed the rising VD rate in the area. Allied servicemen reporting VD over recent months are numbered as follows:-

December	January	February	March (incomplete)
160	187	240	well over 300 to date.

27. Positive action is being taken by both civil and service authorities to introduce compulsory health inspections for all bar hostesses.

Personnel

28. Personnel movements on posting to and from the Unit were as follows:-

<u>No</u>	<u>Rank</u>	<u>Name</u>		<u>Mustering</u>	<u>Date</u>
<u>INWARDS</u>					
0210653	PLT LT	DURNE	J	EQUIP	14MAR66
A450044	LAC	MC KELLAR	R.C.	CHAND	01MAR66

A19100	CPL	PETERS	E.H.	CLKEA	19MAR66

Leave

29. As no decision was to hand on compensation for extra duty during the tour in VIETNAM another submission was prepared.

30. The original submission has been outstanding since 29th September 1965 and although the Flight has been asked to submit further details, as a matter of urgency, this morale affecting issue is still unanswered.

31. The recent submission is contained in 1219/1/P3(162) dated 22nd March 1966.

Mail Services

32. The mail service is somewhat erratic, particularly concerning parcels. Letters from AUSTRALIA to VIETNAM appear to be quicker than mail to AUSTRALIA.

33. Parcels however do not seem to strike any pattern and some indication exists that they may well "sit" at some stage in the system and eventually be delivered with much later postings. This also happens occasionally with letters.

34. The mail will be subjected to close scrutiny in the future and any unsatisfactory facts noted will be the subject of a special submission.

Baggage Allowance

35. The baggage allowance for the issue cabin trunk is 25lbs but the item weighs 37lbs. It would appear that personnel are being deprived of 12 lbs baggage capacity and the Department has been requested to investigate the matter. Our 2107/2/Eq(177) dated 21st March 1966 refers.

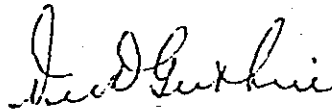

...../5

Welfare

36. The airmen of the Flight have contracted for work to be done to the bar and surroundings, including lining of the ceiling in the area, which has cost them US\$152 from bar profits. The villa now requires colourful tables, chairs and beach umbrellas for use as outdoor furniture.

37. A submission will be made to the Department for funds to provide these articles in due course, as well as to check the possibility of refunding their costs in rehabilitating the area.

38. However, before doing so the local market, and Malaya, will be checked for availability of appropriate furniture and prices will be obtained for comparison with Australian prices.

VIETNAM	18APR66	Gp Capt F.W.S. JOHNSON (033023) ACCT and Wg Cdr S.W. DALLYWATER (05824) GDPIA arrived on a Staff Visit from Department of Air.													
	24APR66	The Right Honourable Mr. Harold HOLT, MP, Prime Minister of Australia and Party which included Major General Sir John WILTON, Chief of the General Staff, Australian Army and numerous Australian and Vietnamese Press Representatives arrived at the Flight. After visiting the working area the Prime Minister and Members of his party proceeded to the Airmens Villa where they were entertained by the members of RAAF Transport Flight. The Prime Minister and Party circulated freely amongst the Officers and Airmen and the visit was a complete success.													
	25APR66	The Air Member for Personnel, Air Vice Marshall W.L. HELLY CB, CBE, AFC arrived for a visit to the Flight.													
	26APR66	Major General C.E. LONG, Deputy Chief of the General Staff Australian Army visited the Flight.													
	29APR66	A changeover of Pilots occurred with the departure of Flt Lt G. GODFREY (054101) and Flg Off G.A. NICHOLSON (041992) and the arrival of Flt Lt D.V. MARLAND (0219590) and Flg Off J. Mo. HARRIS (043732).

RAAF TRANSPORT FLIGHT
MONTHLY REPORT

Introduction

1. This report covers operations of RAAF Transport Flight, VIETNAM from 1st May 1966 to 31st May 1966.
2. The following are the flying statistics for May 1966:-

Sorties	-	759
Hours flown	-	519.45
Cargo carried	-	1,326,392 lbs
Mail carried	-	32,461 lbs
Passengers carried	-	3,653
3. The total effort of the Flight since it commenced operations in July 1964 are as follows:-

Sorties	-	16,853
Hours flown	-	10,861.45
Cargo carried	-	28,549,873 lbs
Mail carried	-	259,705 lbs
Passengers carried	-	78,662

Training

4. Pilot Officer COOPER was made an aircraft captain during the month. Pilot Officer LANNING has commenced his flying checks for upgrading to captain.

Operations

5. This month has seen a considerable change in the Flight's activities. Already one aircraft has had to be withdrawn from the South East Asia Schedule to satisfy Australian Army requirements. Under the present system this Flight is trying to work under two commands. These being 7th Air Force and Headquarters Australian Army SAIGON. Not only is this confusing but is also resulting in a very poor utilisation of aircraft. Australian Army utilization of Caribou aircraft has been very poor considering that over 75 sorties the average load carried was about 2300 lbs.
6. Until the future of No 35 Squadron has been decided and it is again placed under one command, confusion will exist. It is considered and recommended that this Squadron be left under the command of 7th Air Forces and Australian Army commitments be

...2/

CONFIDENTIAL

CONFIDENTIAL

-2-

fragged in the same way as other forces in the theatre. This will not only give a far better utilization of aircraft but will greatly help planning staff in planning future operations.

7. One aircraft was hit by enemy small arms fire during the month. The aircraft was hit in the circuit at Vinh-Long. Only slight damage was caused to the aircraft.

8. Although a genuine attempt was made to reduce the flying commitment over the month the Flight still flew 519.45 hours. It is now anticipated the Flight will overfly its yearly commitment by approximately 175 hours.

Equipment

9. During the month, more spark plugs were reported missing along with private belongings of Flight personnel. Airfield guards were requested to carry out searches of specific indigenous labour, employed by the Flight, on departure for home from the airfield.

10. As a result the private property and a number of plugs were recovered and a subsequent search of the employes living quarters recovered more plugs.

11. It has been decided to treat aircraft spark plugs as VA items and they are held locked in a CONEX made available for similar type items.

12. Recently it was announced by the US Army that fixed wing aircraft in their inventory will be taken over by the United States Air Force as from 1st January 1967. This would mean a change in our supply system for Caribou spares.

13. Further, it is not known at this stage whether the US Air Force will continue to operate Caribou aircraft out of VUNG TAU and therefore the possibility exists that No 35 Squadron may be the only users of such aircraft in the area.

14. As a result of recent conferences with the US Army concerning supply for Caribou aircraft, arising from the visit of Colonel WORLEY, US Army Mutual Security Field Office, Far East, it has eventuated that No 35 Squadron may well have to hold its own spares up to 3rd Echelon (US Army) Maintenance (Approximate 2nd Line Maintenance RAAF). This would involve some 1200 line items. However, in view of the announced change of service for operation of Caribou aircraft, the matter can only be discussed in general information terms at this stage.

15. During the month two Caribou engines were received through the US Supply System and generally supply appears to have met demand, however, as the flying rate dropped somewhat it is difficult to place the better spares situation in its correct perspective.

Transport

16. Due to the departure of Qantas liaison staff from SAIGON following VC activity in the vicinity of their billet the transport requirement in SAIGON decreased.

17. The ramp pass which authorised our VW to all areas of Tan Son Nhut, including the crossing of H/S runway which is essential

...2/

CONFIDENTIAL

CONFIDENTIAL

-3-

to efficient operation in the area, has been withdrawn. The 315th Air Commande Wing are endeavouring to have an "unlimited" ramp pass again authorised on our behalf.

Mail Services

18. Mail deliveries are still unpredictable both to and from Australia, although reports from next of kin indicate that South bound mail is worst.

19. The introduction of AFPO3 appears to have cut 24 hours off the inwards deliveries when times are compared with past deliveries through AFPO1, however, no Certain delivery within a reasonable period can be predicted either way. Reports from Australia indicate as many as seven letters received in one delivery although posting was spread over two weeks.

20. The Army is believed to be investigating mail deliveries and an Army Padre who was most concerned has discussed the problem at length with this Unit.

Medical

21. The total of 57 members were treated throughout the month, mainly diarrhoea and stomach cramps, with a few cases of URTI and Otitis media.

22. Four VDC cases were reported during the month.

23. It is considered that the large number of cases of diarrhoea arise from the build up of numbers without any increase in living area. Living conditions will need to be closely watched in the future to combat disease of this type.

Personnel

24. Personnel movements on posting to and from the Unit were as follows:-

<u>Number</u>	<u>Rank</u>	<u>Name</u>		<u>Mustering</u>	<u>Date</u>

UNIT HISTORY SHEET

(AFO 18/F/5)

of (Unit or Formation) No 35 Squadron

Form A 50
(Revised May, 1951)

No. of Sheet One

Place	Date	Summary of Events	References to Appendices
VUNG TAU VIETNAM	01JUN66	RAAF Transport Flight underwent a name change and is now known as No 35 Squadron, becoming a part of the newly formed Australian Task Force VIETNAM.	
	03JUN66	A14226 Sgt McHAUGHT J.A. ELECFTT and A17893 LAC KNUDSEN C.M. AFFITT arrived on posting from 2AIRDEP and 38SQN respectively.	
	04JUN66	Plt Off J.M.A. LAMING (0316175) was promoted to aircraft captain (Caribou).	
	06JUN66	A32981 Sgt SIMPSON L. ELECFTT, A219806 LAC BONHOR P.J. AFFITT, A219940 LAC WALLACE B.A. ENGFTT and A19447 LAC HILL T.A. departed on posting after completion of tour Vietnam.	
	07JUN66	Wg Cdr C.J. MELCHERT (011419) GDPLT, Flg Off R.G. BRICE (0315475) GDPLT and Plt Off S.G. SPINKS (0316430) GDPLT arrived on posting from 38SQN. At 2000 hours an informal squadron social was held in the Airmens 'Wallaby Club', Villa Ngoc Huong, to welcome the incoming Commanding Officer, Wg Cdr C.J. MELCHERT, and farewell the present Commanding Officer, Sqn Ldr V.D. GUTHRIE. A220722 Cpl CURRY J.H. presented to Sqn Ldr GUTHRIE a powder mug, suitably inscribed, on behalf of the Airmens 'Wallaby Club' to show their appreciation of the efforts given by Sqn Ldr GUTHRIE during his tour to the airmen.	
	08JUN66	Wg Cdr C.J. MELCHERT (011419) GDPLT assumed command of No 35 Squadron. Flg Off P. YATES (056263) GDPLT departed on posting to 38SQN after completion of tour Vietnam.	
	09JUN66	Sqn Ldr V.D. GUTHRIE (022015) GDPLT and Flg Off P.W. PIKE (0221024) GDPLT departed on posting to 38SQN after completion of tour Vietnam.	
	10JUN66	A2977 Sgt WHITE A.M. CLKFA departed on posting to BASQAMB after completion of tour Vietnam.	
	12JUN66	114 Officers and airmen of Base Support Flight and No 9 Squadron arrived at Tan Son Nhut Airport, Saigon by chartered aircraft and were ferried from Tan Son Nhut to Vung Tau by two 35 Squadron Caribou and one USAF C123.	
	16JUN66	A21232 F Sgt BEAGLE R. EQASST, A217739 LAC WATTS J.G. AFFITT, A55532 LAC STEIN L.D. ENGFTT and A219834 LAC HOLLAND H.L. departed on posting after completion of tour Vietnam.	
	19JUN66	Stand-down for most of 35 Squadron personnel. The RAAF Transport Flight Sergeants Mess (now extinct) held a barbeque at back beach, Vung Tau, to welcome the new SNCO's of 9 Squadron and Base Support Flight.	
	20JUN66	A55714 Cpl CHANDLER R.C. AMWKR departed on posting after completion of tour Vietnam.	
	21JUN66	Flt Lt J.T. McDONNELL (038531) GDPLT arrived on posting from 38 Squadron to take up the

No 35 Squadron
UNIT HISTORY
FORM 3 G/- 1955
CLASSIFIED

7th July 1966

Secretary, Department of Air, Russell Offices CANBERRA ACT
Commander, 2nd Air Division, United States Air Base, RAAF WOOMER
Air Attache, Australian Embassy, WASHINGTON DC

NO 35 SQUADRON UNIT HISTORY
FORM 3 G/- 1955

Introduction

1. This report covers the activity of No 35 Squadron Aircraft for the period 1st to the 31st June 1966.

Operational achievements

2. The following are the operational achievements for the period:-

Sorties	-	329
Hours flown	-	724.30
Goods carried	-	1,457,471 lbs
Fuel carried	-	35,000 lbs
Passengers carried	-	1,034

3. The operational total of operational achievements since the Unit was deployed to Vietnam in July 1964 is as follows:-

Sorties	-	17,792
Hours flown	-	11,395.15
Goods carried	-	59,307,314 lbs
Fuel carried	-	231,733 lbs
Passengers carried	-	38,195

Change in Unit Title

4. As directed by Department of Air, 2nd Transport Flight was re-designated No 35 Squadron on the 1st June 1966.

Change in Squadron Officer

5. Squadron Leader J.A. WILSON (022015) having completed the Unit since 24th November 1965 was re-designated to 2nd Air Div on the 21st June 1966 when the Squadron Leader J.A. WILSON (01141) took command.

Training

6. Pilot Officer J.A. WILSON (031 175) was reported to have 5% complete on the 21st June 1966 and it is expected that the remaining 45% of pilots will achieve their operational status within the next few months. Distribution training will be re-commenced with operational flights and additional local work will be possible to cover operations such as night flying.

..2

CONFIDENTIAL

2.

Operations

7. Headquarters Australian Force Vietnam has given approval for No 35 Squadron to continue to operate with the 7th Air Force as in the past and thus the operational activity during June, except for special tasks allocated through COMRAAFV, has consisted of the 405 and 406 missions, (South East Asia Airlift Schedule), the detachment of one aircraft to NHA TRANG, another to DANANG and the 41 mission. Special tasks allocated have so far necessitated the use of only one aircraft at a time and to meet this requirement, the aircraft detailed for the 41 mission was re-allocated accordingly. This procedure is operating quite satisfactory.

8. One aircraft was hit by small arms fire when operating out of DANANG, the bullet passing through the elevator leaving a small hole which required only minor repairs. The only other reported incident of note occurred near CAN THO in the Delta region when one of the squadron's aircraft was fired on from the ground without result.

9. Once again the unit overflow its monthly allocation of flying hours by 34.30 hours. Every effort will be made in the future to maintain a monthly rate of 500 hours but on occasions this may not be operationally possible.

Re-organisation of RAAF VUNG TAU

10. The re-organisation of the RAAF at VUNG TAU is progressing satisfactorily as far as No 35 Squadron is concerned. Accommodation is congested but this will be overcome with the eventual procurement of additional billets. The provision of the Base Support Flight should be advantageous to the general operation of No 35 Squadron.

Equipment

11. The question of future technical spares supply for No 35 Squadron has been taken up by RAAFHQAFV. It is hoped that the existing situation whereby the United States service holds all technical spares in its store and we draw items only as required will continue. This considerably reduces space required for equipment purposes as well as administrative effort necessary for accounting for holdings.

12. It is also in keeping with Department of Air Directive No 11/66 Appendix G which does not authorise No 35 Squadron to hold technical spares.

13. Technical spares have continued to be supplied in a generally satisfactory manner. Only two items have caused inconvenience recently and both have been discussed with RAAFHQAFV for their further action.

14. One is the supply of armour plate (1680-045-0933 KIF MOD PILOTS SEAT SHIELD PROTECTIVE) which is in short supply and is controlled in issue. The other item is the hand held fuselage fire extinguisher (440-555-8837 EXT FIRE) which the US Army does not list as an item of importance to flight safety. As a result No 35 Squadron is unable to demand at times, with the degree of priority required.

Transport

15. The vehicle which was used in SAIGON for movements duties was transferred to Base Support Flight.

../3

UNIT HISTORY SHEET

(AFO 18/F/5)

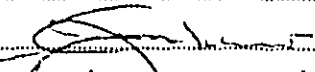

of (Unit or Formation) No. 35 Squadron

Form A 50
(Revised May, 1951)

No. of Sheet 2

Place	Date	Summary of Events	References to Appendices
VUNG TAU VIETNAM	01JUL66	<p>Caribou Aircraft A4-193 piloted by Flg Off J. VANDERSTEEGE was fired on by small arms whilst making approach into THUONG DUC and sustained minor skin damage to the rear fuselage fin and starboard elevator trim tab. The holes were rounded out and insert patched. As a result of this incident the THUONG DUC Airfield is no longer accepted for routine flights by squadron aircraft until such time as the Special Forces are able to guarantee better security.</p> <p>Caribou Aircraft A4-179 piloted by Flg Off R.G. BRICE experienced excessive hydraulic pressure in flight between VUNG TAU and CAN THO. The aircraft returned to VUNG TAU where an emergency flapless landing was carried out using the hydraulic hand pump to allow use of wheel brakes.</p> <p>A19895 LAC MANSFIELD P.J. AFFITT and A216981 LAC LYNCH I. AFFITT arrived on posting from No 38 Squadron.</p>	
	02JUL66	<p>A2359 W Off BUCKHAM WOENG and A221584 LAC FURNESS P.M. AFFITT departed on posting to No 38 Squadron whilst A56060 LAC YOUNG G.J. AFFITT and A111836 LAC O'DOHERTY R.J. GHAND departed on posting to 1AFPS and 81 Wing respectively.</p>	
	15JUL66	<p>Flt Lt H.W. SOLOMONS (025686) TECHENCATRO, A13743 Sgt HILL K.D. AFFITT, A217677 Cpl ELLIOTT A. ELMCFITT, A14976 LAC ELLACOTT D.M. ENGFFITT and A15552 LAC BURNGHOLLOW B.J. ENGFFITT arrived on posting from 38 Squadron whilst A24879 Sgt HUDSON R.L. ENGFFITT arrived on posting from 2 Aircraft Depot.</p>	
	16JUL66	<p>A14968 Cpl MELLOW S.D. ENGFFITT, A21194 Sgt HOLMAN G.C. ENGFFITT, A218593 LAC SUARMAU B.A. ENGFFITT and A13480 Sgt SMALLWOOD H.J. AFFITT departed on posting to Australian Units after completion of service VIETNAM.</p>	
	17JUL66	<p>Flt Lt H.W. SOLOMONS took over the appointment of Unit Engineering Officer from Flt Lt R.H. JONES who is soon to depart for AUSTRALIA after completion of tour.</p>	
	20JUL66	<p>Caribou A4-179 departed for BUTTERWORTH for a compass swing.</p>	
	21JUL66	<p>An aeromedical evacuation of a badly burnt Australian Soldier was carried out in A4-208 crewed by Flt Lt D.F. MARLAND and Flg Off D.M. RULE.</p>	
	22JUL66	<p>A4-193 flown by Flt Lt J.T. McDONNELL and Flg Off D.M. RULE was placed on standby at SAIGON in case of a requirement to carry out aeromedical evacuation to SINGAPORE of the badly burnt Soldier carried on 21st July. Subsequently the soldier was</p>

UNIT HISTORY SUEET C. 14

NO 35 SQUADRON VICTORIAN

MONTHLY REPORT

Introduction

1. This report covers the activity of No 35 Squadron VICTORIAN for the period 1st to 31st July 1966..

Operational Achievements

2. The following are the operational achievements for the period:-

Sorties	-	817
Hours flown	-	521.30
Cargo carried	-	1,127,049 lbs
Mail carried	-	53,929 lbs
Passengers carried	-	3,673

3. The progressive total of uplift since the unit was deployed to VICTORIAN in July 1964 is as follows:-

Sorties	-	18,599
Hours flown	-	11,917.45
Cargo carried	-	31,134,393 lbs
Mail carried	-	348,662 lbs
Passengers carried	-	86,369

Operations

4. The mode of operations basically remained unchanged. However there has been an increase in the number of sorties associated with the ATF and these have been executed by diverting the 41 Mission to carry out the tasks. Special missions such as the carriage of a Parliamentary delegation and Med Evac have been met in the same manner. Weather deterioration associated with the arrival of the monsoon season has been mild and there have been but few incidents of abortive sorties due to adverse weather.

5. Ground fire in the DANANG area caused two strikes on A4-193. The first bullet entered well back on the starboard side of the cargo compartment and went out through the top of the fuselage. The second went through the starboard side of the fin and out through the port tailplane. There was no injury to personnel and the damage was fully repaired during a "D" servicing.

6. Although efforts were made to contain the monthly flying hours within the 500 allocated, the Squadron overflowed by some 21 hours. Had the 41 mission not been curtailed during the month, there is little doubt that the flying hours would have exceeded 600. The reasons for limiting the hours to the monthly allocation are well understood and agreed and efforts will continue to this end.

Recording of Flying Hours

7. In the past, flying times logged for all statistical purposes were recorded from time of take-off to touch-down. Since the 1st July, aircrew have been permitted to add for aircrew log book purposes only, an additional maximum of 10 minutes before take-off and 5 minutes after touch-down. This procedure is much more closely allied to the method used elsewhere in the RAAF and gives a much more realistic record of aircrew commitments. In general, the resultant increase approximates 20% over the hours recorded by the previous method.

2.

Serviceability Rate

8. The serviceability rate for the month was 66.5%, a drop of 10% from the previous month. However, this was mainly due to absence of A4-173 which is undergoing an "E" Servicing at Air Vietnam.

"E" Servicing

9. Caribou A4-173 currently undergoing an "E" Servicing was found to be in the best condition of any of the squadron aircraft so serviced. An early model wing fitted to the aircraft was removed and a currently modified one fitted. The aircraft is expected to be test flown early August.

10. Attempts to have A4-210 immediately follow A4-173 into Air Vietnam for an "E" have been unsuccessful and it is now programmed for the end of August. In the interim it will be "D" serviced and receive an extension of hours to its "E".

Equipment

11. The question of technical spares supply for No 35 Squadron when the United States Air Force operates Caribou aircraft is still being monitored by RAAFHQAFV.

12. Generally technical spares supply has been reasonable throughout the month, however some difficulty is arising in procuring items necessary to build an engine base into a quick change unit. This matter is being investigated currently and full details of specific problems which are beyond unit capabilities will be notified to RAAFHQAFV for assistance.

Personnel

13. The changeover of tourist personnel is proceeding smoothly and satisfactorily. Personnel morale is high and their medical state very good.

14. Personnel movements on postings to and from the unit were as follows:-

UNIT HISTORY SHEET

(AFO 18/F/5)

of (Unit or Formation) No 35 Squadron

Form A 50
(Revised May, 1951)

No. of Sheet 3

Place	Date	Summary of Events	References to Appendices
VUNG TAU, VIETNAM	01AUG66	A twice daily courier service to SAIGON and BIEN HOA for the Army was instituted and the 41 mission has now been discontinued.	
	02AUG66	Flt Lt H.R. LEVINO (05531) GDPLT, Flt Lt J.A. PEDRINA (0314595) GDPLT and Flt Off R.W. SIMPSON (056798) GDPLT arrived on posting from 38 Squadron for flying duties.	
	03AUG66	Flt Lt H.L. PERRETT (0116325) GDPLT, Flt Off G.L. KILBERLEY (054468) GDPLT and Flt Off J. VANDERSTEEGE (0221022) GDPLT departed on posting to No 38 Squadron after completion of an operational flying tour.	
	12AUG66	A216372 Cpl DAVIES K.A. DEFFETT, A32923 Cpl DERRICK D.M. AFFETT, A19141 AC COLTRUP I.J. AMER, A221773 IAC LANGE G.R. AFFETT and A221284 AC RAPPO L.J. ENGELTT arrived on posting.	
	13AUG66	A216777 Cpl BOWDEN K.H. AFFETT, A32991 Cpl MONTGOMERY P.R. INSETT, A13254 Cpl KNOTT K.E. ENGELTT, A19601 IAC TILLEY S.R. AMER, A219021 IAC WHITE K.A. AFFETT and A220722 Cpl CURRY J.H. ENGELTT departed for AUSTRALIA after completion of tour VIETNAM.	
	14AUG66	The Chief of the Air Staff, Air Marshall Sir Alister M. MURDOCH KBE, CB visited No 35 Squadron. At a parade held in the new Bellman Hangar A33700 Cpl INGATE B.T. was formally presented the "Queen's Commendation for Valuable Service in the Air" by the Chief of the Air Staff, the Award being gained by Cpl INGATE on his first tour of VIETNAM with RAAF Transport Flight.	
	16AUG66	A4-173 suffered extensive damage in an accident on landing at BA TO.	
	17AUG66	A Squadron technical team was flown to BA TO by Caribou and Helicopter to salvage A4-173.	
	24AUG66	Caribou aircraft A4-173 was recovered from BA TO and flown to QUI NHON.	
	25AUG66	A4-173 was flown from QUI NHON to VUNG TAU. The aircraft will undergo extensive repairs before being available for flying, this is expected to take 8 weeks from the time repairs are commenced.	
	29AUG66	Flt Off D.W. RUBE (056351) GDPLT was promoted to aircraft captain. A221648 IAC WALLACE R. GHAND (Assistant Loadmaster) was Medically evacuated to AUSTRALIA.

MONTHLY REPORT

Introduction

1. This report covers the activity of No 35 Squadron for the period 1st to 31st August 1966.

Operational Achievements

2. Following are the operational achievements for the period:-

Sorties	-	571
Hours flown	-	519.10
Cargo carried	-	933,140 lbs
Mail carried	-	47,041 lbs
Passengers carried	-	4,967

3. The progressive totals since the unit was deployed to Vietnam in July 1964 is as follows:-

Sorties	-	19,470
Hours flown	-	12,436.55
Cargo carried	-	32,067,533 lbs
Mail carried	-	375,703
Passengers carried	-	91,356

Operations

4. Due to requirements of A1F a twice daily courier service to SAIGON and BINH HOA was instituted on 1st August, and in order to accommodate this requirement the 41 mission was discontinued. The 405 and 406 missions and the detachments to DA NANG and BINH HOA continue normally.

5. On 16th August, A4-173 suffered extensive damage in an accident on landing at SAIGON. The aircraft was repaired sufficiently on site to enable it to be flown out to BINH HOA on 24th August and thence to TUNG HOA on 25th August. No personnel injuries were sustained. The aircraft will undergo extensive repairs before available for flying, this is expected to take a weeks from the time repairs are commenced.

6. In the latter weeks of the month bad weather increased and caused difficulty in fulfillment of tasks. Very few sorties were started due to weather, however, it is expected that the number of abortive sorties will show an increase with the commencement of the SE operations in late September.

7. The Squadron again overflowed its allotted 100 hours, this time by 19.10 hours. This was due to the extra flying involved in salvaging A4-173 in which 59.40 hours was flown by other aircraft against a loss of approximately 18 hours flying by A4-173 i.e. total cost of approximately 11 hours extra flying. Efforts to contain the flying hours will continue.

Maintainability Rate

8. Serviceability rate for the month was 71.4%. As this rate includes allowance for A4-173 undergoing 'D' servicing until 6th August and, later, damaged in the accident on 16th August the rate is considered to be very high. Five 'D' servicings were also carried out during the month.

'E' Servicing

9. Despite intensive efforts by the Squadron, it has not been possible to have A4-210 given a definite position in the 'E' servicing programme. The aircraft is now at the end of its extension of hours and has only enough flying time available to make the trip from VUNG THU to Air Vietnam at TAN SON NHUT.

Aircraft Availability

10. The 'E' servicing of A4-210 and the repairs to A4-173, together with routine 'C' and 'D' servicings leaves the Squadron four aircraft per day available for flying and no spare. Because of this unhealthy state, a request has been made for the attachment of an additional aircraft from Australia until A4-173 is returned to service. If this extra aircraft is not provided then it is anticipated that operations will suffer and be curtailed due to lack of aircraft.

Equipment

11. The items of equipment in the non-technical range received from US Army sources and held on inward loan account have recently been transferred to the RAAF. Most of the items were received in the early days of RAAF Transport Flight and recent efforts to return certain items were not successful as the US Army representatives would not accept them.

12. In the initial stages of the build up of RAAF forces, 3300 RAAF had necessity to obtain items such as tents and bedding and these items have been included in the list received at No 35 Squadron. The Commanding Officer of 3300 RAAF has been advised of this matter as it was understood that he considered these items to be on "loan" and not direct purchases.

Personnel

13. The changeover of tourer personnel continues. Morale is high and medical state very good.

14. The strength of General Hands (Assistant Loadmasters) was brought up to establishment with a posting inwards of 18AC666, later extended to wof 018AC66. However, on 29th August, another General Hand, (Assistant Loadmaster) was medically evacuated and consequently the strength is again 1 below establishment.

15. Personnel movements on postings to and from the unit were as follows:-

<u>Number</u>	<u>Rank</u>	<u>Name</u>		<u>Posting</u>	<u>Date</u>

ROYAL AUSTRALIAN AIR FORCE

UNIT HISTORY SHEET

(AFO 18/F/5)

of (Unit or Formation) No. 35 Squadron

Form A 50
(Revised May, 1951)

No. of Sheet 4

Place	Date	Summary of Events	References to Appendices
VUNG TAU SOUTH VIETNAM	05SEP66	A4-173 was accepted by the 330th Transport Liaison Company for extensive repairs following the accident it sustained whilst landing at BA TO on 16th August 1966.	
		A36621 Sgt STANTFORTH D.K., ENGINEER departed on posting after completion of tour.	
	08SEP66	A large change over of personnel took place with the arrival of an Army Chartered Aircraft. A217675 LAC RILEY S.W. ENGINEER, A112746 LAC SMITH G.W. CLKA, A217790 Cpl VAN DYKEN T. ENGINEER, A222470 AC WILSON M.G. GHAND, A56418 LAC AKOZONER J. ENGINEER, A219702 Cpl BARTER B.C. RADTECHA and A33764 Sgt WOOD K.C. ENGINEER all departed after cessation of tour. The new replacements are as follows:- A32589 Cpl LEE Y.T. ENGINEER, A43672 AC JOHNSON G.H. ENGINEER, A221062 AC HOLLEWOOD R.T. RADTECHA, A17863 AC OLSEN F.W. ENGINEER, A43946 LAC BARNETT J.F. CLKA, A316367 AC PETERS W.S. GHAND and A217961 LAC CLARK R.J. ENGINEER. Two new Pilots arrived in by Civil Air on posting from No 38 Squadron; they are Flg Off G.W. BOXALL (043797) and Flg Off B.G. YOUNG (043754).	
	10SEP66	A4-210 was accepted into Air Vietnam for "E" Servicing. Plt Off R.W.J. COOPER (0221961) GDPLT and Plt Off J.M.A. LAWING (0316175) GDPLT departed on posting to 38 Squadron after completion of tour.	
	12SEP66	A56032 Cpl WAGHORN D.K. ENGINEER departed by C130 Courier on posting to 486 BMTSON.	
	15SEP66	The first leg of the 405 mission was aborted when A4-179, piloted by Flt Lt D.M. MARLAND returned to VUNG TAU and carried out a successful asymmetric landing. The aircraft was inspected and found to have substantial amounts of oil through and around the port engine nacelle area. Investigation revealed that a hose cylinder head oil drain had split along the seam permitting oil to leak through.	
	19SEP66	A4-191 piloted by Flg Off PEDRINA suffered a sudden decrease in power on the port engine whilst in flight from VUNG TAU to TAN SON NHUT on the first leg of the 406 Mission. Anticipating a total power failure on the port engine, the tower at TAN SON NHUT was called requesting use of the long runway. The circuit and landing were uneventful but when reverse thrust was selected, the port engine stopped. Whilst turning off the active runway and after the port engine was secured, the fire warning lights on the port engine illuminated and the crew chief reported smoke from the port engine. One fire extinguisher bottle was discharged into the port engine and the aircraft was stopped clear of the runway. The fire warning lights then went out, the nacelle cowl was

Place	Date	Summary of Events	References to Appendices
VUNG TAU SOUTH VIETNAM		removed and the fire was seen to be out. Inspection revealed that the induction trunk to No 6 cylinder had come loose. This had caused the engine malfunction, then the fire through fuel leakage.	
	21SEP66	A4-171 piloted by Flg Off R.G. BRICE received six bullet holes in rear fuselage, starboard stall fence, starboard main wheel and starboard wing from enemy anti aircraft fire (automatic weapons) on approach for landing at DAK PEK. After visual inspection on ground at DAK PEK it was decided that the aircraft could be flown safely to VUNG TAU via NHA TRANG for repairs. On arrival at VUNG TAU, damage to the aircraft was assessed as Category 2 and work was immediately commenced to repair the aircraft which included removal of the starboard wing to enable the control rod which was damaged to be changed. In all, 247.30 man hours were required to complete repair.	
	26SEP66	Air Commodore K.S. HENNOCK OBE DFC, Director General Plans and Policy, accompanied by Wing Commander K.T. CASEY (011431) EQUIP, arrived at 35 Squadron on a staff visit from Department of Air.	
	29SEP66	A4-171 piloted by Flt Lt MARLAND with port engine shut down and propeller feathered after port engine low prop oil warning light came on carried out a successful asymmetric landing at PLEIKU CU HANH.	
	05OCT66		 (C.J. MELCHERT) Wing Commander Commanding Officer

NO 35 QUANG BINH VIETNAM

MONTHLY REPORT

Introduction

1. This report covers the activity of No 35 Squadron for the period 1st to 30th September 1966.

Operational Achievements

2. Following are the operational achievements for the period:-

Sorties	742
Hours flown	425.55
Cargo carried	740,553 lbs
Mail carried	72,034 lbs
Passengers carried	4,767

3. The progressive total since the unit was deployed to QUANG BINH in July 1964 is as follows:-

Sorties	20,218
Hours flown	12,362.50
Cargo carried	32,000,006 lbs
Mail carried	487,737 lbs
Passengers carried	76,123

Operations

4. There was no change to the mode of squadron operations during the month. However, due to aircraft undergoing 'D' and 'B' servicing and minor and major repairs the Squadron had to forego one week's detachment of an aircraft to SAIGON. This was the major cause of the unit achieving only 425.55 hours for the month, 33.25 hours less than required to maintain the Squadron allotment of hours for the quarter ending 30th September. Availability will continue in meeting all flying tasks until the aircraft undergoing major repairs as the result of the recent accident at SAIGON is returned to service in approximately five weeks.

5. Cessna A-471 suffered damage as the result of ground fire on final approach into SAIGON. The aircraft received six hits, one of which resulted in a mainplane damage thus derating the aircraft for squadron use for a period of six days. It was interesting to note that the crew was unaware of the incident until the after-landing external check.

Serviceability Rate

6. The serviceability rate for the month was down to 66.5%. This is considered reasonable as the Squadron had two aircraft out for the entire month undergoing 'D' servicing and major repairs, one aircraft out for six days due to engine damage, an engine change, two cylinder changes and numerous oil leaks especially in engine accessories.

1st Squadron

7. Cessna A-471B was repaired by the victorians on the 1st September to replace 'D' servicing and it will be returned to squadron service by 1st October. Plans are being made for the victorians to accept A-471B immediately following completion of the 'D' on A-471C.

.../2

CONFIDENTIAL

Aircraft Availability

8. There has been no improvement in aircraft availability during the month; only four of the seven aircraft on squadron strength being available for operations during the majority of the period. The request to Department of Air for an additional aircraft to help the unit through this lean period was refused.

9. In the event of an aircraft becoming unserviceable away from WUE TAU, it is necessary to withdraw another from an operational task to position spare parts and a servicing crew as required.

Weather

10. The ACE has passed through WUE TAU on its way south and is currently located about 5°N. The SE monsoons have arrived earlier than usual with the resultant weather change throughout the country. Coastal regions from WIA BANG north are experiencing adverse weather while the northern inland areas and the Mekong Delta have had a general weather improvement.

Battle Casualties

11.	(a)	Killed in action	-	NIL
	(b)	Wounded in action	-	NIL
	(c)	Died of wounds	-	NIL

Non Battle Casualties

12.	(a)	Killed by accident/misadventure	-	NIL.
	(b)	Died of illness	-	NIL
	(c)	Injured by accident/misadventure	-	One
	(d)	Hospitalised by illness	-	One

Equipment

13. The United States Air Force now has its initial personnel representation with Army Units operating C-47 aircraft from WUE TAU.

14. A watching brief has been arranged through US Army personnel in the supply field, and some US Air Force Officers to keep abreast of Air Force intentions for the supply of C-47 aircraft in the area.

15. The Staff Officer Equipment (SAE) AFV is being briefed of developments and in this manner it is intended to get the earliest possible advice of possible supply problems of the future. In this manner "local" intentions can be monitored and placed at HQAFV level when action seems to be considered necessary.

16. As the equipment area in the new hollow hangar has been completed to a basic stage, other heavy and other appropriate items have been moved there for storage.

17. The ground store is inadequate from most necessary aspects and it will be a big morale boost to equipment personnel to work in an area which is reasonably secure, concrete floored and water proof.

CONFIDENTIAL

3.

Personnel

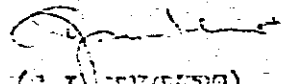

18. Personnel movements or postings to and from the unit were as follows:-

ROYAL AUSTRALIAN AIR FORCE

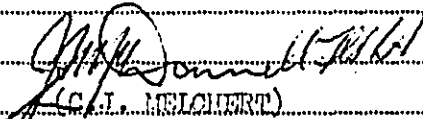

UNIT HISTORY SHEET

(AFO 18/F/6)

of (Unit or Formation) No. 35 Squadron

Form A 50
(Revised May, 1951)

No. of Sheet 6

Place	Date	Summary of Events	References to Appendices
VUNG TAU SOUTH VIETNAM	04NOV66	A23490 Sgt FIDKWICK R. ELECTIVE, A220930 Cpl GHERGITH W.M. AFFITT and A113546 AC KING N.W. GARD Arrived on posting.	
	05NOV66	A2927 P Sgt JENSON P.G. ELECTIVE, A14067 Cpl PENNARTH G.F. AFFITT, and A210887 Sgt ADAMS H.C. AFFITT departed on posting after completion of Operational Tour VIETNAM.	
	07NOV66	A11792 Cpl SMITH D. ELECTIVE departed on compassionate leave to AUSTRALIA and further on attachment to 1BPTS leaving the Squadron short 1 ELECTIVE.	
	11NOV66	A314910 AC FISHER G.D. ELECTIVE arrived on posting from 1ATRDEP.	
	13NOV66	A16863 IAC CAUSICK G.L. ELECTIVE arrived on attachment from 78WING.	
	18NOV66	Flt Lt C.J. FOWLER (0217728) EQUIP arrived on posting from 1ATRDEP.	
	22NOV66	A110315 IAC HALL G.L. ELECTIVE arrived on posting from 3ATRDEP. A handover/takeover of Administrative/Equipment Officer took place between Flt Lt J. DUNNE (0210653) EQUIP (outgoing) and Flt Lt C.J. FOWLER (0217720) EQUIP (incoming).	
	23NOV66	A16863 IAC CAUSICK G.L. ELECTIVE departed on cessation of attachment from 78WING.	
	27NOV66	A4-191 was subject to an unscheduled engine change due to broken cylinder attachment studs.	
	28NOV66	A4-173 which was damaged in an accident at BAWO on 16AUG66 was received back from DYNAMICTRON (US Army Contractors). All the metal repairs have been completed using a total of 2798 man hours. It will still be some time before the aircraft is flown as wings, motors and numerous ancillary equipment is still to be fitted. Some parts are unobtainable through supply sources at the moment and this is gradually bringing the repair to a halt. Flt Lt J. DUNNE (0210653) EQUIP, departed on cessation of attachment from 1STRDEP and was further posted to HQSUICOM.	
		 (C.J. MELCHERT) Wing Commander Commanding Officer

CONFIDENTIAL

NO 35 SQUADRON VIETNAM

MONTHLY REPORT

Introduction

1. This report covers the activity of No 35 Squadron for the period 1st to 30th November 1966.

Operational Achievements

2. The following are the operational achievements for the period:-

Sorties	747
Hours flown	473.50
Cargo carried	958,514 lbs
Mail carried	91,458 lbs
Passengers carried	5,854

3. The progressive totals since the unit was deployed to VIETNAM in July 1964 are as follows:-

Sorties	21,729
Hours flown	13,775.05
Cargo carried	34,472,070 lbs
Mail carried	628,468 lbs
Passengers carried	107,599

4. It is interesting to note that the grand total weight carried since the unit commenced operations in Vietnam is 56,620,538 lbs, allowing an average weight of 200 lbs per passenger. This result is an average payload per sortie of 2600 lbs which is a most respected figure considering that a very large number of missions consist of a one way lift.

Operations

5. Until the last week of the month there was every indication that the squadron would achieve at least its monthly allocation of 500 hours. However, adverse flying weather resulting from the NE monsoons in the central area of Vietnam was the main cause of the unit underflying by 26.50 hours.

6. The mode of operations remained unchanged. The DA HANG detachment will re-commence as soon as aircraft become available.

7. No hits from ground fire were recorded by squadron aircraft during the month. However, there has been no slackening on the part of the VC in this regard which is evident by the number of hits recorded by American aircraft.

Squadron Training

8. Five squadron pilots were instrument rated during the month, two ratings being upgraded to "Green Card" standard and three secured renewal of their "White Card". In addition one pilot was upgraded to a "Right Hand Seat" captain.

Aircraft Availability

9. Caribou A1-20s has remained with Air Vietnam throughout the month on an "E" servicing and is due to return to the Squadron by mid December. Caribou A1-17s was returned to No 35 Squadron during the last week of November but considerable work has yet to be completed before it is back on line. The installation of engines and mainframes

CONFIDENTIAL

-2-

is the major work to be carried out. Caribou contractors to the Americans carried out the initial repair and strikes by that organization plus the necessity to hand-make some of the sections slowed the repair process.

Serviceability Rate

10. The serviceability rate for the month was 64.5%. As A4-208 and A4-173 are both included in these statistics, this percentage is considered reasonable. With both aircraft out of commission the maximum percentage of serviceability possible is 71.5%.

Weather

11. A general deterioration in weather throughout the country was experienced. The NE monsoons have had a most adverse effect on flying in the northern half of the country, whilst the southern half has experienced fringe effects of the monsoons and the ITCZ which is slow in its southward movement.

Battle Casualties

12.	(a)	Killed in action	-	Nil
	(b)	Wounded in action	-	Nil
	(c)	Died of wounds	-	Nil

Non Battle Casualties

13.	(a)	Killed by accident/misadventure	-	Nil
	(b)	Died of illness	-	Nil
	(c)	Injured by accident/misadventure	-	One
	(d)	Hospitalized by illness	-	One

Equipment

14. The relaxed accounting procedures as detailed in AFO E 5/1 began to be instituted from the 1st November 1966 and will gradually be extended to exclude all MIU accounts. Although this relaxation has been authorized by higher authority special care has been taken to ensure safe custody of equipment and correct and authorized use.

15. A further series of stores voucher trial reporting to RAAF EOP began on the 21st November and will finish on 7th December 1966. The extra work load generally is slight and requires from 1/2 to 1 hour daily. The machine supplied for the task of photo copying the vouchers is unsatisfactory both from the resultant product obtained and the excessive time taken to produce copies. If and when day to day reporting is introduced it is doubtful if the present machine will be able to cope.

16. During the month of November BURBANK was initially unable to supply certain urgently required items such as breathing oxygen because of heavy commitments for C130 aircraft. However, during the latter part of the month special flights were scheduled from BURBANK with the result that the supply backlog has been almost cleared.

17. The US Army supply system has been unable to make available certain spares needed for the reconstruction of Caribou A4-173 so that on the 30th November it became necessary to upgrade 23 of these demands to EOP (ie AOG). It is probable that many more

CONFIDENTIAL

.../3

CONFIDENTIAL

-3-

of our demands will be similarly upgraded in early December.

18. The handover/takeover of the duties and responsibilities of the Equipment Officer post was completed to the satisfaction of the Commanding Officer and the outgoing incumbent Flight Lieutenant J. DUMME was congratulated for the effort and efficiency he had maintained throughout his tour.

Personnel

19. Personnel movements to and from the unit on postings were as follows:-

<u>Number</u>	<u>Rank</u>	<u>Name</u>	<u>Musterina</u>	<u>Date</u>

	15 DEC 66	A43452 Cpl KING J.L. RADTECHA arrived on posting from 38SQN. A218884 Sgt COOPER W.J. CLKA and A17190 LAC REDDACLIFFE T.J. RADTECHA departed on posting to 1CENRES and 2AIRDEP respectively.	
	16 DEC 66	AVM P. de L. Le CHEMINANT DFC (RAF) of HQFEAF and Gp Capt M.P. STANTON (RAF), the British Air Attache SAIGON, visited VUNG TAU and were conducted on a tour of the Base.	
	17 DEC 66	Plt Lt D.W. MARLAND (0219590) GDPLT departed on posting to 38SQN.	
	19 DEC 66	Plt Off R.N. SIMPSON (056798) GDPLT became ill at PLEIKU whilst carrying out flying duties from the NHA TRANG detachment.	
	20 DEC 66	Plt Off SIMPSON returned to VUNG TAU where he underwent an aircrew medical examination. Because of the nature of his illness, it was decided that Plt Off SIMPSON should go to No 4 RAAF Hospital at BUTTERWORTH for further medical examinations. A signal was dispatched to the Department of Air informing that department of the foregoing and additionally, that a replacement pilot would be required from early January 1967, the Squadron being able to cope with planned commitments until then.

CONFIDENTIAL

NO 35 SQUADRON VIETNAM

MONTHLY REPORT

Introduction

1. This report covers the activity of No 35 Squadron for the period 1st to 31st December 1966.

Operational Achievements

2. The following are the operational achievements for the period:-

(a) Sorties	- 917
(b) Hours flown	- 454.00
(c) Cargo carried	- 799,368 lbs
(d) Mail carried	- 162,530 lbs
(e) Passengers carried	- 6,698

3. The progressive totals since the unit was deployed to VIETNAM in July 1964 are as follows:-

(a) Sorties	- 22,646
(b) Hours flown	- 14229.05
(c) Cargo carried	- 35,271,438 lbs
(d) Mail carried	- 790,998 lbs
(e) Passengers carried	- 114,297

4. The uplift of mail and passengers during the period is something of a record and is no doubt due to the festive season and a change-over of a considerable number of AUSTRALIAN Army personnel which necessitated uplift to and from SAIGON. The resultant number of sorties is also the highest for some months.

Operational

5. The squadron underflew its monthly allocation of 500 hours by 46 hours. The main reason for this is that the USAF utilized the 41 Mission on airfield surveys throughout VIETNAM, No 35 Squadron carrying a survey team into practically all the airstrips which are restricted by length and accessibility to Caribou operations. Other selected airstrips were also included. This necessitated remaining at each location for approximately one hour to permit the team including an engineer, to acquire the information required and thus aircraft utilization suffered as a result. The main reason for the task was to permit the USAF to classify each strip for the future operation of their Caribous when they take over from the US Army on 1st January 1967.

6. Other contributory causes for underflying were periods of adverse flying weather in Central and North areas of SOUTH VIETNAM, and a number of unserviceabilities mainly caused by leaking propeller integral oil controllers (IOCs).

...../2

CONFIDENTIAL

CONFIDENTIAL

-2-

7. No hits from ground fire were recorded by squadron aircraft during the month. However there has been no apparent decrease of the VC activity in this regard. It has been reported that the VC have introduced 12.7 mm anti-aircraft artillery in the II Corps area.

Squadron Training

8. Route checks were carried out on three squadron captains and all successfully passed the test. One pilot was instrument rated and upgraded to "Green Card" standard.

Aircraft Availability

9. Caribou A4-208 returned on 31st December from Air Vietnam after 'E' servicing. The next 'E' is due in approximately February 1967 and is to be completed by the USAF at CAM RANH BAY.

10. The repair of Caribou A4-173 is being delayed by the lack of a considerable number of spare parts and in the interim, items have been removed from it to keep the other squadron aircraft flying.

11. The Commanding Officer visited QUI HON, another Caribou base, in an effort to obtain items required but due to a large decrease in the number of spare parts available in country not one of the 40 odd items could be procured. It appears obvious that the general shortage has resulted from the USAF take-over of the JS Army Caribous and a probable run-down of spares holding by the Army. Apparently the US Army's equipment administration left quite a lot to be desired in that items in store have not all been catalogued.

12. The squadron is currently investigating the possibility of procuring items from AUSTRALIA required to return A4-173 to squadron service.

13. Three 'D' servicings and one engine change were carried out during the period.

Serviceability Rate

14. The serviceability rate for the month was 65%. Reference is made to the November report on this aspect.

Weather

15. Adverse flying conditions are continuing in the central and northern parts of the country. Fringe effects are still being experienced in the Delta mostly in the form of very strong north easterly winds. The SAIGON/BIEN HOA areas were frequently fog bound until about 0800 to 0900 hours.

Battle Casualties

16. (a) Killed in action - nil
(b) Wounded in action - nil
(c) Died of wounds - nil

Non Battle Casualties

17. (a) Killed by accident/misadventure - nil
(b) Died of illness - nil

...../3

- (c) Injured by accident/misadventure - nil
- (d) Hospitalized by illness - nil

General

18. A few aspects of the USAF take-over of the US Army Caribous are worthy of note.

19. USAF air and ground crews have been fed into the Army Caribou Company since July 1966 and by December 30 to 90% of strength was USAF personnel who were recruited from many units throughout the service. The flying background of pilots varied considerably. Some came from F100s, KC135s, C141s etc, and many had no previous experience on piston engined aircraft.

20. In December five USAF crewed Caribous were involved in major accidents, the general flying experience of those concerned was between 2000 and 5000 flying hours. One resulted from a heavy landing on a strip of 3000 feet in length. Another occurred at a restricted strip of 1400 feet in length. On this occasion the aircraft was being flown by a pilot with 40 hours on type in the USA and who was having his first flight in VIETNAM, a right hand seat check captain was also in the aircraft.

21. The US Army has expressed concern regarding the capability of the USAF to meet the Caribou tasks as previously carried out by the Army. This concern is mainly based on the much higher safety standards required by USAF and it is apparent from discussions that the USAF will insist on an improvement in this aspect especially in regard to the proximity of hazards adjacent to airstrips such as trucks, aircraft and stores.

Equipment

22. All AGC demands on the 326th Field Maintenance Detachment (US Army) were cancelled on 31st December 1966 as responsibility for spares backing was transferred to the USAF on 1st January 1967. These demands have now been submitted to the USAF via a logistic support base at CAM RANH BAY. Because of the drastic reorganization it is expected that, initially, there will be a supply hiatus. Large stocks of unidentified Caribou equipment held by the US Army were handed over in bulk and have become quite a headache to the USAF.

23. Correspondence continues on the supply of wheel chocks for the Caribou aircraft, the latest action being a sealing variation request for another four of these aircraft items.

24. Our Q4.1 dated 22nd December 1966 to Support Command stated that a number of AGC items for M-173 could not be supplied within reasonable time from US supply agencies and requested details of availability from Australian sources. The return signal from Headquarters Support Command was not retransmitted by SAIGON Communications Centre and a tracer signal has been sent to seek reasons for the non transmission.

25. Immediate action by Headquarters Support Command to our EOS demand for the supply of special hydraulic oil is appreciated especially so as it occurred during the Caribou period.

Administrative

26. The attention of Base Support Flight was drawn to an apparent anomaly existing in Finance Circular 986/26, taxation exemption for leave accrued in VIETNAM. The tax exemption does not include two days unit leave for each five days leave in leave permitted to be taken outside the area. At this time no reply has been received from the Department of Air.

CONFIDENTIAL

-4-

27. Two former members of the Squadron, Flight Lieutenant B.V. TIPPING (035364) EWIP and A217629 Corporal ERATT K.A. ENGFITT, were awarded the MBE and the Queens Commendation for Valuable Service in the Air respectively in the New Year Honours List. The awards were for service in VIETNAM.

Personnel

28. Personnel movements to and from the unit on posting were as follows:-
