NO 35 SQUADRON VIETNAM

MONTHLY REPORT

Introduction

1. This report covers the activities of No 35 Squadron during the period 1st to 31st January 1968.

Operational Achievements

2. Following are the operational achievements for the periods shown:-

	<u>1 - 31 Jan 68</u>	<u>Progressive Totals Since Jul 64</u>
Sorties	903	33,537
Hours	508.55	20,895
Cargo	764,724	45,470,054
Mail	312,317	3,443,918
Passengers	9,009	215,598

Operations

3. January was an average month with the Squadron exceeding its monthly allocation by 8 hours 55 minutes, bringing the hours flown during the current financial year to 3488 hours 20 minutes; 11 hours 40 minutes behind the "line".

4. The Chinese New Year (Tet) which officially started on 29th January, produced a marked increase in VC activity. A truce was declared from 1800 hours 29th January to 0600 hours 31st January, however, this was cancelled on the morning of 30th January because of the increase in VC activity.

5. On 30th January the NHA TRANG Detachment was evacuated from PLEIKU as the result of a heavy VC attack on the town and airfield. The Detachment, under the command of Flying Officer W.S. McALISTER, remained at PLEIKU after all other aircraft were evacuated, to carry out two Combat Essential sorties before leaving the area. The Detachment returned to VUNG TAU on the 30th January and re-deployed to NHA TRANG on the afternoon of 31st January.

6. On 31st January, nearly all major airfields and many minor airfields came under attack and were closed to air traffic for varying periods. This caused the cancellation of the 006 Mission and portion of the Australian Forces Vietnam Courier.

7. As from 22nd January, BLACKHORSE Airfield was included in the morning AFV Courier schedules on Mondays, Tuesdays, Thursdays, Fridays and Saturdays to provide support for Royal Australian Navy personnel serving with the US Army 135th Helicopter Company.

8. The increase in Squadron flying hours from 6,000 to 6,300 for 1967/68 and to 6,600 for 1968/69 (Department of Air Organization Directive No 5/68 refers) should not cause any problem as far as aircrew are concerned, however, it may require some addition to the Technical Flight. This matter is now being investigated. There will certainly be no problem in utilizing the hours with the increase in effort required to uplift personnel arriving on future charter flights.

9. Weather throughout the Republic remained excellent during the month, although high winds were still prevalent at VUNG TAU.

~~CONFIDENTIAL~~

-2-

Technical

10. The receipt of A4-191 back from Air Vietnam on 26th January, after undergoing E Servicing, brought the strength of aircraft up to seven. This is the first time since A4-210 was involved in an accident in July last year. A4-179, however, is now due for E Servicing and is due to be handed over to Air Vietnam on 3rd February. After it is completed there will then be no aircraft due for several months.

11. The serviceability rate for January rose from 77.5 percent in December to 80.2 percent. There was no appreciable increase in maintenance effort to achieve this, but rather a decrease in unserviceabilities.

12. Three engine changes were carried out by the squadron and one by Air Vietnam during the month. The one at Air Vietnam was an Australian engine which seized during the de-inhibiting process after the E Servicing. This has been allotted to DeHavilland BANKSTOWN for investigation. The engines changed by the squadron included one Australian engine scheduled for change and two Spartans which suffered internal failures.

13. The recent establishment increase to technical musterings is currently being filled and by the middle of February all of the new posts will have been manned. This will bring relief to some of the overcommitted musterings, especially the engine matters.

Equipment

14. During the month of January a total of 295 equipment demands were raised on the following sources of supply:-

(a) AUSTRALIA	7	
(b) Base Support Flight	NIL	
(c) Butterworth	NIL	
(d) US Army		
(i) 53rd General Support Group	50	
(ii) 528th QM Company	4	
(iii) 368th Transport Company	NIL	
(e) United States Airforce	536th TCS	377th Support Group
(i) G NORS (AOG)	9	-
(ii) A NORS (LOS)	20	-
(iii) H NORS (URR)	-	-
(iv) LOCP (URR)	-	-
(v) OS	197	8

15. As at the end of January there were no outstanding AOG or G NORS demands against squadron aircraft.

16. WO CDR H.W.E. JOHNSON, Staff Officer Equipment RAAFQAFV, visited the squadron on 21st January 1968 and carried out a brief inspection of equipment procedures.

~~CONFIDENTIAL~~

.../3

Administration

17. The following visits were made to the squadron during the month of January:-

- (a) 15 JAN 68 - MR GOUGH WHITLAM MP
- (b) 29 JAN 68 - MR R. WANT - D PSYCH Department of Air.
- (c) 29 JAN 68 - Vice Admiral Sir ALAN MCHICOLL, KBE, CB, CM, Chief of the NAVAL Staff.

18. FLT LT H.J. MELLING GDPLT Squadron Flight Commander, was promoted to the Substantive rank of SQN LDR wef 1 JAN 68.

On 13th January 1968, A113643 LAC O'DONNELL H.J. CHAND was admitted to No 36 EVAC Hospital VUNG TAU as a result of an incident involving Vietnamese nationals - He was subsequently evacuated to No 24 EVAC Hospital LONG BINH for specialist treatment. Casualty procedure was initiated.

19. Personnel movements for the month of January were:-

35S 81/2/Air(20)

COMMANDING OFFICER'S REPORT

FEBRUARY 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of February 1968.

Operational Achievements

2. The operational achievements are:-

	<u>February 1968</u>	<u>Progressive Totals Since July 1964</u>
Sorties	1,075	34,612
Hours	580.55	21,475.55
Cargo	1,301,263	46,771,317
Mail	245,506	3,689,424
Passengers	9,892	225,490

Operations

3. The month of February saw an increase in the operational effort caused by the closure of VUNG TAU Airfield for part of the month to RAAF Hercules C-130 aircraft, the closure of the road from VUNG TAU through BARIA to the First Australian Task Force by VC activity, and the increased civil aircraft charter service from and to Australia. The result of the increased effort is shown in the following table:-

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1967/68 Progress	
			Planned	Achieved
600.00	580.55	550	4100.00	4070.50

4. The VC campaign which increased markedly during the TET period continued to hamper operations in the SAIGON area whilst 005 and 006 missions were cancelled. Maximum effort from the squadron was asked for and met from 2nd to 5th February 1968 uplifting stores, ammunition, and food from VUNG TAU to LUSCOMBE Airfield for First Australian Task Force.

5. Communist activity against airfields in the Central Highland, was stepped up during the first week of the month. The crew and aircraft detached to NHA TRANG came under mortar attack at KONTHUM and were fired at by recoil-less rifles whilst unloading at BEN HET. The aircraft was not hit on either of these actions. The aircraft was commanded by the Flight Commander, Squadron Leader H.J. WATLING who together with his crew acted in the best traditions of the Royal Australian Air Force and earned high praise from the forces being supported.

6. Weather throughout the Republic of Vietnam was good for flying activities. Heavy smog from bombing, artillery and fires severely reduced visibility in most areas, especially SAIGON. The strength of the surface wind at

~~CONFIDENTIAL~~

UNCLASSIFIED
~~CONFIDENTIAL~~

-2-

VUFG-TAU confirmed the statistics that February is the windiest month of the year.

7. The study of the additional work load placed on the Technical Flight resulting from the increased flying rate was completed during the month. No variations to the current establishment table will be necessary.

Technical

8. There were no major problems involved with the aircraft maintenance during February, and with little requirement to work overtime, a serviceability rate of 86.3 percent was achieved for the month. This is a marked increase in serviceability, and undoubtedly the manning of the recently established posts contributed to this rise. The workload, however, is expected to increase rapidly when the wet season arrives in a few months time.

9. A4-179 was finally accepted by Air Vietnam for E Servicing on 20th February after being due for three weeks or more. Because of the enemy activity on TAN SON NHUT, the airfield was closed to all but essential military aircraft, and Air Vietnam was closed to employees and they are virtually limited to four hours work per day. At this time it would appear as though the E Servicing will take in excess of three months to complete.

10. One unscheduled engine change was carried out. An engine in excess of 1000 hours suffered a failure in the reduction gearing producing a loud banging noise at low RPM. Defect report Serial Number 11/68 dated 13th February refers.

11. The dust problem still exists in the technical area and is causing undesirable effects. The dust is actually very fine sand. It has the ability to get into seals, causing oil leaks, or into intake ducts, causing internal damage. One of the difficulties is the maintenance of the cleanliness of the aircraft. Each aircraft must be cleaned once every week. This involves a considerable number of manhours. It would seem, however, that there is little that can be done to improve the position during the dry season.

Equipment

12. During the month of February a total of 439 equipment demands were raised on the following sources of supply:-

(a)	AUSTRALIA	5	
(b)	Base Support Flight	NIL	
(c)	Butterworth	NIL	
(d)	US Army		
	(i)	53rd General Support Group	16
	(ii)	528th QM Company	10
	(iii)	388th Transport Company	NIL
(e)	United States Air Force	536 TAS	377th Support Group
	(i)	G NORS (AOG)	8
	(ii)	A NORS (MOS)	15
	(iii)	N NORS (URR)	-
	(iv)	EOCP (URR)	-
	(v)	O5 (URG)	183
			207

13. As at the end of February there were no outstanding AOG or G NORS

UNCLASSIFIED

.../3

UNCLASSIFIED

CONFIDENTIAL

-3-

demands against squadron aircraft. Alterations to the squadron crew room which will produce an extension of the space available for the storage of equipment, were commenced in the latter part of the month. When available, this new area will be used to house a "Bench Stock" which will be available from the 536th TAS, USAF.

Administration

14. The command of No 35 Squadron was handed over from SQN LDR A.J. FOOKES (033200) GDPLT to WG CDR J.D. ESPIE (033153) GDPLT wef 7 FEB 68. The Handover/Takeover was completed and signed on this date.

15. A squadron barboque was held in the annex to the maintenance hangar to farewell the departing CO, SQN LDR A.J. FOOKES. The function was attended by all available squadron members.

16. FLT LT A.J. PERRY (0216406) GDPLT was appointed T/Commanding Officer vice WG CDR J.D. ESPIE (033153) GDPLT wef 24 FEB 68. FLT LT D.G. BLISS (0219881) was appointed T/Flight Commander vice SQN LDR H.J. WATLING (015612) GDPLT wef 24 FEB 68. Both these appointments were necessary due to the absence of Commanding Officer and Flight Commander on detachment at NHA TRANG.

17. A218895 LAC DAVIS R.F. ENGFITT was promoted to the substantive rank of CPL wef 01 FEB 68.

18. A216045 CPL STEWART G.I. JASST was MEDEVACED TO 4RAAF Hospital wef 26 FEB 68. Member is not likely to return to unit.

19. Personnel movements for the month of February were:-

NO 35 SQUADRON USE BY AUTHORITY, CHIEF OF THE AIR
35S 81/2/Air(21)

COMMANDING OFFICER'S REPORT

MARCH 1968 File No.

Introduction

1. This report covers the activities of No 35 Squadron during the month of March 1968.

Operational Achievements

2. The operational achievements are:-

	<u>March 1968</u>	<u>Progressive Totals</u> <u>Since July 1964</u>
Sorties	892	35,504
Hours	533.20	22,009.15
Freight	738,202 lbs	47,509,519 lbs
Mail	305,984 lbs	3,995,408 lbs
Passengers	10,249	235,739

3. The present trend of the type of transport air support indicates an increase in the number of passengers carried with a corresponding reduction in the carriage of freight. This is related to the increase in strength of Australian Forces VIETNAM; a larger number of personnel being tour expired and replaced and those going and returning from Rest and Recreation Leave.

Operations

4. Operations during March were not as intensive as in February. Communist military efforts decreased and no sorties were cancelled as a result of enemy activities.

The following table shows the effort in terms of flying hours:-

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1967/68 Progress	
			Planned	Achieved
550	533.20	550	4650	4602.35

6. Delays in sorties were caused in the main by unserviceabilities with engine ignition systems. Although delays were caused by defective magnetoes, high tension leads, and spark plugs, the fouling of spark plugs through a build up of carbon indicates that a revision of engine handling techniques by pilots is timely. This is to be done in conjunction with an analysis of the technical aspects.

7. Weather throughout the REPUBLIC of SOUTH VIETNAM was characterized by inversions, thick haze and the resultant very poor visibility. Several sorties were delayed, particularly into and out of SAIGON, due to IFR let downs and departures. Dust and sand were a nuisance but towards the end of the month the strength of the surface winds decreased forecasting the change in seasons.

CONFIDENTIAL

.... / 2

~~CONFIDENTIAL~~

-2-

Technical

8. The serviceability of aircraft was 78.2 percent. There was a slight increase in unserviceabilities related to the engine ignition systems as mentioned in para 6.
9. The work rate for the E Servicing of A4-179 at Air Vietnam has increased with the return of normal working hours in Saigon. The revised estimate for the completion of the servicing is now the last week in April 1968.
10. Two engines were changed during the month. A Spartan overhauled engine was removed after 145 hours when numerous cylinder holding down studs were found to be loose in the crankcase. An Australian reconditioned engine with 567 hours was removed because of an excessive oil leak between the front and reduction cases.

Administration

11. Visits to the squadron were made by:-
- a. 15th March 1968 - Air Vice Marshall C.D. CANDY C.B. CBE Air Member for Personnel
 - b. 20th March 1968 - Lieutenant General Sir John WILTON KBE CB DSO, Chairman Chiefs of Staff Committee.
12. An application to vary the squadron establishment table was submitted during the month. This application requested a variation in the Headquarters Flight Orderly Room from one Typist (F) to one IAG CLK A.

Equipment

13. A total of 200 equipment demands were raised and at the end of the month there were no outstanding priority demands against aircraft.
14. The equipment staff cheerfully accepted the extra work load caused by the medical evacuation of the Corporal equipment assistant in February. The replacement equipment assistant will arrive during the second week in April 1968.

Discipline

15. The discipline throughout the unit remained at a very high level.

Morale

16. The morale of the members of the squadron was excellent and was reflected in the members energetic approach to all problems, whether technical, administrative, equipment or operational.

WING TAU
3rd April 1968.

(S.D. ESPLE)
Wing Commander
Commanding Officer

COMMANDING OFFICER'S REPORT

APRIL 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of April 1968.

Operational Achievements

2. The operational achievements are:

	<u>April 1968</u>	<u>Progressive Totals Since July 1964</u>
Sorties	868	36,312
Hours	505.50	22,515.05
Freight	734,412 lbs	48,243,931 lbs
Mail	372,187 lbs	4,367,595 lbs
Passengers	9,402	245,141
Medical Evacuations	11	28

Operations

3. Operations during April were routine with the exception that the detachment at NEA TRANG flew two sorties on parachutist training for ARVN.

4. The following table shows the effort in terms of flying hours:

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1967/68 Progress	
			Planned	Achieved
500	505.50	500	5150	5110.00

5. One medical evacuation sortie from VUNG TAU to TAN SON NHUT was flown as VUNG TAU airstrip was closed to C-130 operations. The task revealed no difficulties in co-ordinating aircraft timings between the Caribou and Hercules to affect a smooth transfer of patients.

6. On 28th April 1968 air logistic support operations commenced, in conjunction with No 9 Squadron and US Army Air Units, for the maintenance of the Forward Headquarters and units of the 1st Australian Task Force deployed from NHUI DAT.

7. The number of delays to sorties caused by minor unserviceabilities were reduced compared with March 1968. Two missions for the USAF were cancelled, one on 26th April and the other on 29th April 1968 as there was no spare aircraft. This situation arose from 8th April 1968 as only five Caribou aircraft were available at the squadron. The performance and handling of Caribou A4-210 were not acceptable for air transport operations; No 35 Squadron Air Incident Report No 19/68 and signal 1723 of 10th April 1968 to RAAFH-JAFV refer. Follow up reports on this aircraft are being drafted.

~~CONFIDENTIAL~~

-2-

Technical

8. The serviceability of aircraft for the month was 72.6 percent, a decrease compared with March 1968 but a good result in view of the fact that A4-210 was grounded for 19 days for extensive technical investigation.

9. Caribou A4-179 was accepted from Air Vietnam on 30th April 1968 after E Servicing. It is expected that the next aircraft, A4-208, will become due for E Servicing towards the end of July 1968.

10. One engine change was carried out following the discovery of metal in the main oil filter.

11. In an attempt to reduce the engine ignition problems experienced last year during the wet season and caused by rain and moisture, engine covers are being made by the safety equipment workers.

12. All technical facilities and workshop lay outs previously in the process of being re-organized were completed during the month. This has resulted in improved the workshop practices and working conditions for the technicians.

Administration

13. The work-load in the Headquarters Flight Orderly Room is being borne by the Sergeant Clerk Administrative. No replacement has been found for the civilian typist female who left at the end of March 1968. Applicants for this position could not read written English and/or required excessive supervision. All commitments were met thanks to the efforts of the sergeant and the co-operation received from other units of the Contingent.

Equipment

14. The annual 100% stocktake of all "A" and "C" class items was finalized during the month. The results were excellent, only one discrepancy was discovered. This was the result of an accounting error.

15. A total of 186 demands were raised. At the end of the month no outstanding AOG or GNORS demands remained against squadron aircraft.

16. The equipment section was fully manned on 9th April 1968. Overtime has now been reduced to a minimum.

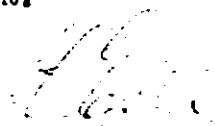

Discipline and Morale

17. The discipline through the squadron remained at a high level. Morale is excellent.

VC Activity

18. A VC rocket and recoilless rifle attack on the VUNG TAU airfield and surrounding area in the early hours of 23rd April 1968 caused neither injuries to the members of the squadron nor damage to squadron equipment.

VUNG TAU
4th May 1968

(J.D. ESPIE)
Wing Commander
Commanding Officer

35S 81/2/Air(25)

NO 35 SQUADRON

COMMANDING OFFICER'S REPORT

MAY 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of May 1968.

Operational Achievements

2. The operational achievements were:

Sorties	861
Hours	494.20
Freight	755,075 lbs
Mail	325,454 lbs
Passengers	8,632
Medical Evacuations	NIL

3. The progressive totals for the Caribou effort in VIETNAM are not included in this report. These are most adequately presented in Department of Air Statistical Bulletins.

Operations

The beginning of the South West Monsoon hampered operations in the MEKONG Delta Region of VIETNAM. No sorties were cancelled due to weather although some were delayed.

5. On 9th MAY, 11th MAY and 22nd MAY 1968 the scheduled services for the South East Asia Airlift were aborted due to aircraft unservicabilities. In each case, the spare aircraft was also unserviceable. The time taken to rectify the faults did not allow the missions to be completed.

6. The 006 Mission aircraft, the scheduled service around the MEKONG DELTA, was hit by automatic small arms weapon fire 30MS North East of CA MAU on the 24th May 1968. (No 35 Squadron Aircraft Incident Report No 25/68 refers).

7. The following table shows the operational effort in terms of flying hours:

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1967/68 Progress	
			Planned	Achieved
520	494.20	500	5650	5604.20

.... /2

CONFIDENTIAL

CONFIDENTIAL

-2-

8. The total of 494 hours 20 minutes resulted from:

a. Australian Forces Vietnam

Scheduled Services	120.10
Special Flights	10.30
Air Logistic Support 1ATF	18.00

b. South East Asia Airlift

Scheduled Services	153.55
Special Flights	152.35

c. Training, Air Tests, Travel 39.10

9. The target of 520 hours for the month was not achieved due to the three scheduled missions, outlined in paragraph 5, being abortive.

10. The present trend of the type of transport air support is for reduced numbers of passengers carried whilst the weight of mail and freight airlifted remains about the same level. The reduced number of passengers carried has resulted from 834th Air Division providing C-130 and C-123 aircraft to uplift Australian servicemen to and from TAI SON NHUT on the days of the QANTAS charter flights. At the Nha Trang Detachment, as the ground action against the enemy is carried further inland, sortie times are becoming longer and there are few back-loads available from the forward secure airfields and camps to NHA TRANG.

Technical

11. Aircraft serviceability for the month was 77.7 percent. This percentage is calculated excluding aircraft A4-210 which is grounded. A condition report was submitted on A4-210 under 35S 2503/1/Tech(5) dated 3rd May 1968. Further details on this aircraft were submitted to Department of Air in 35S 86/1/Air (3) dated 3rd May 1968. No replies have been received to these reports.

12. Three unscheduled engine changes were carried out. One change was for excessive vibration and rapidly increasing oil consumption, one for an auxiliary drive shaft failure and the third for a cracked centre crankcase. (Defect Reports No's 22/68, 26/68 and 27/68 refer).

Administration

13. The work-load in the Headquarters Flight Orderly Room is being carried by the Sergeant Clerk Administrative with assistance from other clerks of the Contingent. No suitable replacement seems available to fill the establishment for the civilian female typist. No arrears of work have developed but this is only due to the co-operation received from other units and the sustained effort of the SGT CLKA.

14. To solve this problem a request for a variation to Establishment Table HQ/1081D in VII 1/68 dated 28th March 1968 to vary the civilian typist (F) post to a LAC/AC CLKA was submitted. The approval of this variation in establishment is essential for the effective working of the squadron. To date, no reply has been received to this request.

Casualty

15. On 24th May 1968 Flg Off H.J. GOODSALL (0222450) GDPLT was injured by enemy ground fire whilst flying on the 006 Mission. (Message P150 dated 24th May 1968 refers).

CONFIDENTIAL

.../3

CONFIDENTIAL

-3-

Equipment

16. During the month 514 demands were raised. At the end of the month there was one GEORS demand outstanding. This is the first time in the past six months that a priority demand has remained outstanding for a 14 day period.
17. All aspects of equipment are working smoothly. The work-load is distributed evenly resulting in a minimum of overtime.
18. The working relationship between the staff and members of USAF and US Army supply systems is excellent.

Discipline and Morale

19. The discipline throughout the Squadron was very good but not as high as desired. One charge was heard during the month whilst the hearing of two charges have been delayed until early June 1963 due to operational commitments.
20. The morale of the airmen is excellent.

VUEG TAU
4th May 1968

J.D. DSPEL

NO 35 SQUADRON

35S 81/2/Air(27)

COMMANDING OFFICER'S REPORT

JUNE 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of June 1968.

Operational Achievements

2. The operational achievements were:

Sorties	1008
Hours	556.35
Freight	961,459
Mail	264,683
Passengers	9152
Medical Evacuations	NIL

Operations

3. The South West Monsoon caused minor delays to missions during the month. Two sorties, both affecting 1ATF, were not completed due to severe thunderstorm activity.

4. On 11th June 1968 the detachment at NHA TRANG was disbanded. The aircraft and equipment were re-positioned at VUNG TAU and the 002 Mission recommenced operating from VUNG TAU on 12th June 1968. The decision to disband the detachment resulted from a study by 834th Air Division. This study included the tactical airlift capability to meet the needs of HQMACV during the South West Monsoon. The main tasks of the 002 Mission have since been the uplifting of JP-4 to MCC HOA and CAO LAKE for helicopter operations, and the uplift of pallets of rockets to small airstrips for use by the forward air controllers operating over the MEKONG Delta.

5. On 15th June 1968, air logistic support for 1ATF to Long Bien Plantation airstrip commenced. This task continues and has increased the daily flying effort by about 3 hours.

6. The 002 Mission aircraft was hit by one bullet, probably 7.62mm, on 22nd June 1968. The bullet went through No 2 Fuel Cell in the starboard wing, entering at the base and leaving from the right side of the cell. Minor metal work damage inside the wing was caused by the ricochet. The self sealing properties of the fuel cell proved effective. (A482 26th June 1968 refers).

7. The 006 Mission on 24th June 1968 was aborted due to engine trouble. (AIR 32/68 refers).

.... /2

~~CONFIDENTIAL~~

8. The following table shows the operation effort in terms of flying hours:

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1967/68 Progress	
			Planned	Achieved
540	556.35	500	6150	6160.55

9. The total 556 hours 35 minutes resulted from:

a. Australian Forces Vietnam

Scheduled Services	117.00
Air Logistic Support 1AFF	50.40
Special Flights	10.25

b. South East Asia Airlift

Scheduled Services	155.10
Special Flights	203.35

c. Training, Air Tests, Travel 19.45

10. Against the 1967/68 allocation of 6150 flying hours the squadron overflowed by 10 hours 55 minutes. An overflow of flying hours can be expected when air logistic support is provided for 1AFF operating outside PHUOC TUY Province,

Technical

11. Aircraft serviceability for the month was 86.6% excluding A4-210 which is grounded from transport air support operations and has now been allotted to No 38 Squadron. Including A4-210 the aircraft serviceability was 76%.

12. Two unscheduled engine changes were carried out. An Australian engine had excessive oil draining from the rear case breather when MAP was greater than static pressure. A Spartan reconditioned engine was changed when a piece of gear tooth was found in the oil scavenge filter. (Defect Reports Nos 30/68 and 34/68 refer).

13. Spark plug serviceability and reliability are now at a reasonable level following the introduction in April of accepted engine handling techniques. Except for the changing of time-expired spark plugs, there was only one instance of changing a spark plug during the month. This occurred when the ceramic insulation cracked around the centre electrode. This was the first defective plug since 5th May 1968. Fouling of plugs has not occurred since 1st May 1968.

14. The current evaluation of Australian supplied spark plugs against US supplied plugs is, to date, revealing no difference.

Administration

15. Despite valiant and sustained efforts by the Sergeant Clerk Administrative, there are now arrears of work in Headquarters Flight Orderly Room. It is expected that the amount of clerical work and typing waiting to be done will increase until the request for a variation to Unit Establishment referred to in last month's report is approved and the recommended new post of LAC/AC CLKA is filled. A further increase in workload is expected from the change of policy regarding recreation leave travel on return from active service. (DEPAIR PS124 17th June 1968 refers).

~~CONFIDENTIAL~~

..../3

~~CONFIDENTIAL~~

Unit Establishment

16. A submission to vary the Establishment of six General Hands in Flying Flight to three General Hands has been despatched to RAAFHQAFV. The requirement for assistants to Loadmasters (C) has reduced since these posts were established, (35SQN 4/1/Air(21) 26th June 1968 refers).

Equipment

17. During the month of June, a total of 254 demands were raised. As at the end of the month there were no outstanding AOG/GNORS demands.

18. All aspects of the Equipment Section continue to run smoothly and the co-operation received from US sources of supply remains excellent.

Discipline and Morale

19. The discipline throughout the Squadron is very good. Morale is excellent.

VUNG TAU
3rd July 1968

(J.D. ESPIE)
Wing Commander
Commanding Officer

S E C R E T

NO 35 SQUADRON

35S 81/2/Air(29)

File No. _____
COMMANDING OFFICER'S REPORT

JULY 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of July 1968.

Operational Achievements

2. The operational achievements were:

Sorties	1000
Hours	582.30
Freight	779,743 lbs
Mail	330,747 lbs
Passengers	9738
Medical Evacuations	NIL

Operations

3. Operations continued safely and efficiently with some interference from the weather. On the 003 Mission (AFV Courier) BLACKHORSE was overflowed five times due to ground fog whilst LUSCOMBE was overflowed twice due to severe thunderstorm activity. LUSCOMBE was also overflowed twice when aircraft developed engine trouble.

4. The scheduled service (006 Mission) around the BIKONG Delta region was routine except on one occasion when aircraft unserviceability caused a late departure. This resulted in two airfields being overflowed. On one other occasion, a landing at CAO LAM was not possible due to helicopter operations.

5. The main task of the 002 Mission continues to be the positioning of JP4 at airstrips in the Delta Region for helicopter operations. This fuel is usually uplifted from BIEN TRUY.

6. Air logistic support for 1ATF to LONG BIEN PLANTATION airstrip ended on 13th July 1968 when the force returned to NUI DAT.

7. The following table shows the operational effort in terms of flying hours:

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1968/69 Progress	
			Planned	Achieved
520	582.30	500	500	582.30

~~CONFIDENTIAL~~

8. The total of 582 hours 30 minutes resulted from:

a. Australian Forces Vietnam

Scheduled Services	124.20
Air Logistic Support 1ATF	37.45
Special Flights	12.05

b. South East Asia Airlift

Scheduled Services	175.15
Special Flights	169.30

c. Training, Air Tests, Travel 63.35
(Ferry A4-159, 33.20)

9. The overfly of flying hours was due to the ferry flight of A4-159 from Australia, and Air Logistic Support for 1ATF.

Technical

10. Aircraft serviceability for the month was 82.7%.

11. The major maintenance during the month were a "D" Servicing and three unscheduled engine changes. Two of the engine changes were for re-occurring momentary power losses caused by sticking exhaust valves.

12. A4-208 is being held in Class 6 Category B storage awaiting the result of negotiations with USAF on "E" Servicing. Air Vietnam are unable to undertake future servicing. It is intended to make use of the USAF facilities in the Philippines for both "E" Servicing and the complete stripping and repainting of A4-179, A4-191 and A4-193. These aircraft were repainted at Air Vietnam and in many places the paint surface thickness is .010 instead of .001.

Administration

13. It is pleasing to report that approval for the establishment of a LAC/AC CLKA has been received. The immediate response for manning the new post was gratifying. In the mean time the Headquarters Flight staff are working extremely hard to keep the arrears of work to an acceptable level.

Equipment

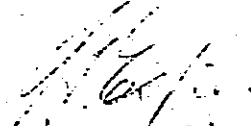

14. 361 demands were raised during July. As at the end of the month there were no outstanding AOG/GNORS demands.

15. At present there are no significant problems associated with the requisitioning and/or supply of spares from either US or Australian sources.

Discipline and Morale

16. Discipline throughout the squadron is very good. Morale is excellent.

WUNG TAU
2nd August 1968

(J.D. USPE)
Wing Commander
Commanding Officer

~~CONFIDENTIAL~~

DOCUMENT IS DECLASSIFIED
PUBLIC USE BY AUTHORITY, CHIEF OF THE AIR
CONFIDENTIAL

NO 35 SQUADRON

35S/81/2/Air(31)

File No: COMMANDING OFFICER'S REPORT

AUGUST 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of August 1968.

Operational Achievements

2. The operational achievements were:

Sorties	977
Hours	504.40
Passengers	9,426
Medical Evacuations	NIL
Freight	993,881 lbs
Mail	285,437 lbs

Operations

3. Operations continued safely with some interference from the weather. On the 003 Mission, BLACKHORSE was overflown 10 times due to ground fog. On the majority of these occasions, the mail for the members of the RAN was delivered either by No 161 Independent Reconnaissance Flight or 135th Aviation Company US Army.

4. The 005 Mission was aborted at TAN SON NHUT on 8th August 1968 due to a major unserviceability. DALAT CUM-LY and GIA NGHIA were both overflown twice on this mission when the weather prevented landings.

5. The 006 Mission was not flown on 9th August 1968 due to aircraft unserviceability. On 21st August 1968 this mission aircraft was diverted to VUNG TAU from CA MAU as the hydraulic system was unserviceable. CAO LANH was overflown three times because other aircraft operations prevented landings.

6. No irregularities occurred to the 002 Mission which continued to support operations in the MEKONG Delta Region.

7. The following table shows the progressive flying effort;

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1968/69 Progress	
			Planned	Achieved
510	504.40	500	1000	1037.10

8. The total of 504 hours 40 minutes resulted from:

a. Australian Forces Vietnam

Scheduled Services	109.20
Special Flights	8.15

/b.

CONFIDENTIAL

CONFIDENTIAL

-2-

b.	South East Asia Airlift	
	Scheduled Services	149.05
	Special Flights	208.40
c.	Training, Air Tests, Travel	29.20

Flying Training

9. Joint Air Training. To maintain the proficiency of the squadron and Air Despatchers in re-supply, the air dropping of compacta was carried out on three occasions in conjunction with Detachment 176 Air Despatch Company RAASC, Australian Logistic Support Group. This training was most successful.
10. Night Flying. Continuation of night flying training was conducted over a period of two weeks for all aircrew.

Technical

11. Aircraft Serviceability for the month was 82.7%.
12. The major maintenance carried out were three 'D' Servicings and two unscheduled engine changes. One engine was changed due to excessive oil from the crankcase breathers, the other for low manifold absolute pressure.
13. During the 'D' Servicing of A4-191, a complete strip and paint of the upper wing and upper fuselage was necessary to control corrosion. This task could only be carried out with the co-operation of No 9 Squadron. The work done by the two Surface Finishers from No 9 Squadron was appreciated.
14. Unit Maintenance Orders have now been revised and the amendment list will be issued in September 1968.
15. Caribou A4-208 is still held in Class 6 Category B storage awaiting a date for 'E' Servicing at the USAF overhaul facility in the PHILIPPINES. The delay is causing some concern as Caribou A4-173 is due for 'E' Servicing in 179 hours.

Administration

16. The back-log of work in Headquarters Flight is being reduced with the arrival of the LAC CLKA.

Equipment

17. The Equipment Section continues to run smoothly.
18. The responsibility for "Bench Stock" was transferred from 536th TAS USAF to the squadron during the month. This stock consists of about 550 line items which cover the day-to-day needs for the maintenance of Caribou aircraft. The responsibility for the replenishment and stock checking of the Bench Stock remains with 536th TAS USAF.
19. 791 demands were placed on US and Australian supply sources during August 1968. At the end of the month no AOG/GNORS demands were outstanding.

/Discipline

CONFIDENTIAL

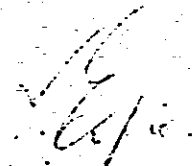

UNCLASSIFIED
~~CONFIDENTIAL~~

-3-

Discipline and Morale

20. Discipline throughout the squadron is very good. Morale is excellent.

ROYAL AUSTRALIAN AIR FORCE

UNIT HISTORY SHEET

(AFO 18/F/5)

Form A 50
(Revised May, 1951)

of (Unit or Formation).....No. 35 SQUADRON.....

No. of Sheet.....28.....

Place	Date	Summary of Events	References to Appendices																					
VUNG TAU	02SEP68	A217859 CPL DYER B.A. ENGFITT promoted to the substantive rank of SGT wef 01SEP68.																						
VUNG TAU	05SEP68	Received notification of the promotions of FLT OFF J.H. MAXWELL (0222544) GD FLT and FLT OFF W.B. BYRON (0222085) GD FLT to substantive rank of FLG OFF wef 29APR68.																						
VUNG TAU	11SEP68	Aircraft A4-191 hit by enemy ground fire whilst on 006 Mission. Aircraft was flying 8 miles NE CAMAU RVN when it was hit at 110405Z. The aircraft captain FLT LT D.G. ELISS (0219881) GD FLT was slightly injured as was A218200 CPL ANGUS D.J. ENGFITT, Loadmaster(c) who was supernumerary crew. The aircraft suffered Cat. 2 damage which resulted in a windscreen change. Full details of the incident were reported in 35 SQN's A611 and A612 dated 11SEP68.																						
VUNG TAU	12SEP68	FLT LT R.J. THOMPSON (0316968) GD FLT appointed T/Commanding Officer vice WG CDR J.D. ESPIE (033153) GD FLT, whilst WG CDR ESPIE was absent on approved leave.																						
VUNG TAU	13SEP68	Director General of Medical Services, Air Vice Marshal A.H. MARSH CBE CStJ, visited the Unit.																						
VUNG TAU	16SEP68	WG CDR J.D. ESPIE (033153) GD FLT, resumed command of No 35 Squadron vice FLT LT R.J. THOMPSON (0316968) GD FLT.																						
		Caribou Aircraft A4-208 departed to Phillipine Airlines for 'E' Servicing. Allotment authority CAR 17/68 refers.																						
		The establishment and strength of Personnel, Aircraft and Mechanical Transport as at 30SEP68 as follows:-

File No. 35S/81/2/Air(33)

No 35 SQUADRON

COMMANDING OFFICER'S REPORT

SEPTEMBER 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of September 1968.

Operational Achievements

2. The operational achievements were:

Sorties	991
Hours	470.15
Passengers	8867
Medical Evacuations	Nil
Freight	1,155,386 lbs
Mail	273,577 lbs

Operations

3. There was little interference to operations from the weather which caused only four sorties to be aborted. On the 003 Mission, BLACKHORSE was overflown once. On the 006 Mission on 11th September LONG KUYEN, DONG DUONG, AN THOI and CA MAU were overflown. Whilst this 006 Mission aircraft was attempting to get to CA MAU, the aircraft was hit by enemy ground fire, causing minor injuries to the aircraft captain and the supernumery Loadmaster (c) (No 35 Squadron AIR 47/68 refers).

4. Only one sortie was aborted due to aircraft unserviceability. This was the 005 Mission on 14th September and resulted in LUSGIBEE being overflown in the afternoon.

5. The aircraft allocated daily to the 002 Mission continues to operate most effectively and is reflected in the freight uplifted being in excess of 1,000,000 lbs; this was last achieved in February 1968 during the TET offensive.

6. The following table shows the flying effort:

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1968/69 Progress	
			Planned	Achieved
490	470.15	500	1500	1557.25

The target of 490 hours was not achieved as the factor (4%) planned, for bad weather proved pessimistic.

.../The

CONFIDENTIAL

CONFIDENTIAL

- 2 -

7. The total of 470 hours 15 minutes and 991 sorties resulted from:

a. Australian Force Vietnam

Scheduled Services	92.30 hours
	263 Sorties

b. South East Asia Airlift

Scheduled Services	135.30 hours
	274 Sorties

Special Flights	207.55 hours
	430 Sorties

c. Training, Air Tests, Travel	34.20 hours
	19 Sorties

Flying Training

8. Joint Air Training. Training continued with Detachment 176 Air Despatch Company RAASC, Australian Logistic Support Group in the air dropping of compact loads.

Technical

9. The aircraft serviceability for the month was 76.1%. This was lower than expected and was due to difficulties in obtaining components which usually last the life of the aircraft e.g. H/F aerial mast and double-ended chuck, aileron hinges, and cowl hinges.

10. The major maintenance carried out were two 'D' Servicings and three unscheduled engine changes. One engine was changed due to broken cylinder holding down studs, one reconditioned engine seized during the after-installation ground run, and a scavenge oil pump failed in another engine.

11. The amendment to Unit Maintenance Orders was not issued and will be delayed until October 1968. This was caused by the members concerned having to work on the arrangements for 'E' Servicings at Manila.

12. Caribou A4-206 was ferried to the USAF overhaul facility at Manila on 16th September 1968 for 'E' Servicing.

Administration

13. The administrative aspects of the squadron are most satisfactory and are nearly up-to-date.

Equipment

14. A total of 197 demands were raised at all sources of supply. As at the end of the month there were no AOG or GEORS demands outstanding.

15. This was the first full month in which an assessment of the new positioning of the Bench Stock could be made. The main area of advantage is the reduction in the number of requisitions that have to be submitted for items which are now, in the main, automatically re-supplied. Another important factor is the reduction in the number of times a member of the equipment staff has to travel to the USAF source of supply. The on-site Bench Stock allows direct issues and thus better service to the user sections.

.../ The

CONFIDENTIAL

~~CONFIDENTIAL~~

- 3 -

16. The equipment staff now spend more time in the section; the work load has not reduced but overall efficiency has increased with these new arrangements.

Discipline and Morale

17. Discipline remains very good. Morale is excellent.

VUNG TAU
2nd October 1968

J.D. Espie
(J.D. ESPIE)
Wing Commander
Commanding Officer

File No. 355/81/2/Air(35)

No 35 SQUADRON

COMMANDING OFFICER'S REPORT

OCTOBER 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of October 1968.

Operational Achievements

2. The operational achievements are:-

Sorties	1059
Hours	506.40
Passengers	9487
Medical Evacuations	48
Freight	1,198,581 lbs
Mail	318,452 lbs

Operations

3. Operations continued successfully during the month. A tropical storm interfered with operations on 19th and 20th October with the following effect:-

- a. 19th October
 - (1) 002 Mission aborted at midday
 - (2) 003 Mission afternoon schedule cancelled
 - (3) 005 Mission aborted at 1100 hours
- b. 20th October
 - (1) 002 Mission cancelled
 - (2) 003 Mission morning schedule cancelled.

4. Other variations to missions were:-

- a. 003 Mission. On 23rd October Blackhorse was overflowed as there was no off-load.
- b. 005 Mission. On 22nd October the aircraft became unserviceable at PHU RANG. After the aircraft was made serviceable, time did not allow the mission to be completed; sorties to NHA TRANG, DALAT GUMLY and LUSCOMBE were cancelled.
- c. 006 Mission. On 4th and 14th October TRI VINH was overflowed as there was no off-load and no available cargo load. On 11th October CAO LAMN was overflowed as helicopter operations prevented landing.

.../ 5 Operations

UNCLASSIFIED
CONFIDENTIAL

~~CONFIDENTIAL~~

- 2 -

5. Operations continue efficiently, aircraft utilization is very good. This is the second successive month in which the freight uplifted exceeded 1,000,000 lbs.

6. The safety record of the squadron was spoilt on 7th October 1968 when Caribou 14-152 was damaged on landing following an air test (35SQN AIR 50/68 refers).

7. The following table shows the flying effort:-

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1968/69 Progress	
			Planned	Achieved
510	506.40	500	2000	2064.05

8. The total of 506 hours 40 minutes and 1059 sorties resulted from:

- a. Australian Force VIETNAM
 - (1) Scheduled Services 97.25 hours
274 sorties
 - (2) Special Flights 24.40 hours
58 sorties
- b. South East Asia Airlift:
 - (1) Scheduled Services 146.45 hours
298 sorties
 - (2) Special Flights 215.45 hours
414 sorties
- c. Training, Air Tests, Travel 22.05 hours
15 sorties

Flying Training

9. Joint Air Training. Training continued with Detachment 176 Air Despatch Company RANSA, Australian Logistic Support Group in the air dropping of compact loads.

Technical

10. The aircraft serviceability for the month was 84.8%. This excellent figure is the result of the high standard of workmanship and inspection now being obtained on scheduled servicings and, to a lesser extent, pilots discussing minor unserviceabilities with the technicians at the end of each day's flying.

11. Since the 8th October, after the accident to 14-152, all members of the Technical Flight have responded to the challenge to maintain four out of a strength of five aircraft on line daily. Nevertheless, the present maintenance planning will be nullified if a replacement aircraft for 14-152 does not arrive by mid-November 1968.

12. The dismantling of 14-152 in preparation for the sea voyage to Australia on RANAS SYDNEY presented opportunities for improvisation. The result is a credit to the members concerned.

~~CONFIDENTIAL~~

.../ 13 The

CONFIDENTIAL

- 3 -

13. The major maintenance carried out were three 'D' Servicing and one unscheduled engine change. The engine was changed due to excessive exhaust smoke indicating worn piston rings.

14. The amendment to Unit Maintenance Orders was issued during the month. The result of the orders now being more specific is reflected in better management and inspection at SICO level.

15. A report 35S/2503/6/Tech(1) of 3rd October 1968 was submitted on the USAF/RAN servicing facilities in MANHIA. This covered the responsibilities and recommendations for modified 'E' Servicing for RAAF Caribou aircraft. Caribou A4-208 is scheduled for completion of the 'E' servicing on 3rd November 1968. It is expected that this aircraft will be accepted from USAF on 7th November 1968 as the ferry crew and technical members could not be booked on MAC aircraft until 6th November 1968 to travel from SAIGON to MANHIA.

Administration

16. The administration of the squadron is most satisfactory and is now up-to-date. This is the first month in which the unit had its full strength of CLK's following the establishment change.

Equipment

17. A total of 231 demands were raised on all sources of supply. At the end of the month no AOG or GNORS demands were outstanding.

18. All aspects of equipment supply and administration are satisfactory. The equipment staff continue to give excellent service to the user sections.

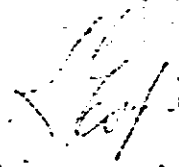

Enemy Attack

19. During the early hours on 19th October 1968, the enemy attacked the VUNG TAU area with 122mm rockets. No member of the squadron was injured; no damage occurred to unit equipment.

Discipline and Morale

20. Discipline remains very good. Morale is excellent.

VUNG TAU
2nd November 1968

File No.

COMMANDING OFFICER'S REPORT

NOVEMBER 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of November 1968.

Operational Achievements

2. The operational achievements are:-

Sorties	978
Hours	519
Passengers	9573
Medical evacuations	Nil
Freight	988,453 lbs
Mail	401,824 lbs

Operations

3. Operations continued safely during the month. The following table shows the flying effort:-

SUMMARY OF FLYING EFFORT - HOURS				
Target	Achieved	Monthly Allocation	1968/69 Progress	
			Planned	Achieved
495	519	500	2500	2583.05

4. The total of 519 hours and 978 sorties resulted from:-

- a. Australian Force VIETNAM
- | | |
|------------------------|----------------------------|
| (1) Scheduled Services | 91.50 hours
261 sorties |
| (2) Special Flights | 7.55 hours
23 sorties |
- b. South East Asia Airlift
- | | |
|------------------------|-----------------------------|
| (1) Scheduled Services | 139.50 hours
284 sorties |
| (2) Special Flights | 181.30 hours
368 sorties |
- c. Training, Air Test, Travel
- | | |
|--|---------------------------|
| | 97.55 hours
42 sorties |
|--|---------------------------|

UNCLASSIFIED

-2-

5. The flying effort for air transport operations was smaller than that planned. The delivery of freight from the larger airfields in the Mekong Delta Region for onward uplift to the small airfields by Caribou aircraft was reduced due to irregular flights by C-130 aircraft and an unserviceable fork lift at SOC TRANG. These factors prevented the squadron uplifting over 1,000,000 lbs freight for the third successive month.

6. Typhoon NINA caused the cancellation of all operations on 27th November 1968. Operations on 28th November 1968 were mounted from PHU CAT and the scheduled missions, although late, were successfully completed. (Refer para 12 below)

7. Delays to the scheduled departure times of five missions were caused by aircraft minor unserviceability. Other variations were:-

- a. 005 Mission. LUSCOMBE and GIA NGHIA were each overflowed once due to no off-load.
- b. 006 Mission. CAO LINH was overflowed once due to helicopter operations. TRA VINH was overflowed once as there was no off-load.

Aircraft

8. On 9th November 1968, Caribou A4-208 was ferried from BANHUA to VUNG TAU upon the completion of the equivalent of E Servicing.

9. Caribou A4-173 was ferried to BANHUA on 15th November 1968 to undergo the equivalent of E Servicing at PAL.

10. On 25th November 1968, Caribou A4-152 was loaded onto HMAS SADDON for shipping to Australia.

11. Caribou A4-140 was delivered to the squadron from No 38 Squadron on 25th November 1968 to replace A4-152.

12. During the early hours of 27th November 1968, five aircraft were flown to PHU CAT to avoid damage by Typhoon NINA. One aircraft which was undergoing D Servicing remained at VUNG TAU.

Technical

13. The aircraft serviceability for the month was 78.6%. This figure reflects favourably on the standard of workmanship and supervision being maintained.

14. Two D Servicings were carried out and one unscheduled engine change.

15. The equivalent of E Servicing carried out by PAL on A4-208 is very good and re-emphasizing the poor workmanship and service provided in the past by Air Vietnam.

16. The arrival of A4-140 on 25th November 1968 was timely as all technical members have worked extremely hard and well to maintain four serviceable aircraft on line each day since 8th October 1968.

Administration

17. The administration of the squadron remains most satisfactory.

~~CONFIDENTIAL~~

.../Equipment

~~CONFIDENTIAL~~

-3-

Equipment

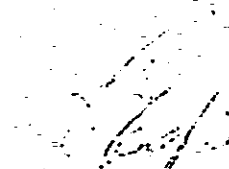

18. A total of 236 demands were raised on all sources of supply. At the end of the month 5 AOG or GORS demands were outstanding.

19. All aspects of equipment supply and administration continue to be most satisfactory.

Discipline and Morale

20. Discipline remains very good. Morale is excellent.

VUNG TAU
2nd December 1968

(J.D. ESSE)
Wing Commander
Commanding Officer

~~CONFIDENTIAL~~

35S/81/2/Air(37)

No 35 SQUADRON

COMMANDING OFFICER'S REPORT

DECEMBER 1968

Introduction

1. This report covers the activities of No 35 Squadron during the month of December 1968.

Operational Achievements

2. The operational achievements are:-

Sorties	1074
Hours	454.55
Passengers	9132
Medical Evacuations	Nil
Freight	1,290,464 lbs
Mail	290,491 lbs

Operations

3. The weather held fine throughout December and in no way interfered with operations. A 005 mission was lost on O2D.K68 when both the aircraft scheduled for the task and the standby aircraft became unserviceable.

4. The 002 mission has been devoted to carrying larger quantities of freight over shorter distances this month. As a result the squadron flew more sorties and carried more freight than it has since the TLT period in early February. The total hours flown, however, were reduced.

5. The following table sums up the flying hours.

SUMMARY OF FLYING HOURS			
Planned	Achieved	1968/69 Progress	
		Planned	Achieved
510	454.55	3000	3038

No attempt was made to fly extra missions to reach the normal monthly target figure of 510 hours because the progress total for the current financial year is still ahead of the planned figure.

6. The breakdown of the 1074 sorties and 454.55 hours flown is as follows:-

~~CONFIDENTIAL~~

/a.

~~CONFIDENTIAL~~

-2-

- a. Australian Force Vietnam
 - (1) Scheduled Service 93.20 hours
278 sorties
 - (2) Special Flights 27.10 hours
40 sorties
- b. South East Asia Airlift
 - (1) Scheduled Service 137.55 hours
293 sorties
 - (2) Special Flights 179.50 hours
437 sorties
- c. Training, Airtest, & Travel 16.40 hours
26 sorties

The AFV Special Flights include a number of sorties allocated to transporting the government sponsored Australian concert party to the various concentrations of Australian servicemen throughout South Vietnam.

Flying Training

7. Joint Air Training. Air supply training continued with Detachment 176 Air Dispatch Company RAASC.

Technical

8. The aircraft average serviceability was 77.4%, with a serviceable and not flown figure of 13.97%.

9. It was necessary to carry out three 'O' Servicing during December; one more than normal. This kept the Engineering Flight very busy; it also involved postponing the two compass swings originally planned for December.

10. Zone 1 Fire Warning System. The Zone 1 Fire Warning System remains an issue both from a technical and flying safety point of view. On both counts No 35 Squadron has recommended the incorporation of USAF TO 1C-7A-567, Removal of Power Plant Zone 1 Fire Detection System, in No 35 Squadron aircraft. This recommendation was endorsed by Headquarters Support Command T949 dated 19SEP68. Department of Air advised on 28DEC68 that the matter is under active consideration. However, the squadron has had three false fire warning light illuminations in the last month; and the technical objections still stand.

Administration

11. The command of No 35 Squadron was handed over from Wg Cdr J.D. SPLE (033153) GDPLT to Sqn Ldr B.W. SELLSMAN (032527) on 02DEC68.

12. Squadron administration is sound, standardized, and current.

Discipline

13. There has been a spate of curfew breaching during the month, resulting in seven charges and seven convictions. The offences were minor; and in large arose out of one drink for the road causing the airmen to lose track of time. The festive season probably had a bearing on the epidemic.

~~CONFIDENTIAL~~

Equipment
..Equipment

~~CONFIDENTIAL~~

-3-

Equipment

14. A total of 184 demands were raised on all sources of supply. At the end of the month there were no LOG or GNORS demands outstanding.

Morale

15. Although no one likes to spend Christmas away from home, squadron morale remains high. The excellent work of the Catering Flight of No 10SU made Christmas a festive occasion indeed, and this work plays no small part in any review of collective morale.
